I wish to strongly opposed the destruction of this priceless habitat to put in a one way bus way,

1, it is an absolute waste of public money it only runs for a couple of hours one way each morning. There is a rail line proposal which should be investigated further. The hard shoulder could be used instead.

2, the destruction of this unique habitat which is home to many diverse creatures. Environmental issues have not been considered.

3, public opinion is strongly against this destruction.

4, it's not properly coated the figures are years old it'll run massively over budget, there is no cost benefit analysis so a business case doesn't stand up.
