Subject: Proposed busway in SE Cambridge

To whom it may concern,

I am writing about my objections to the proposed Greater Cambridge partnerships scheme for a 5 mile busway.

My postcode is [REDACTED] and I grew up in this area. I have drunk spring water from Nine Wells as a child and these are my haunts. On these selfish grounds I object to the plans but also as this plan will cost thousands more than the plan to go along the A1307 . It will cut through unique chalkland and make this an even less Nature friendly district. So many species have disappeared from here are since my childhood and I lament this. I also believe that we should urgently keep as much agricultural land in use and not be importing food at this very unstable time in the world. Why are good proposals ignored and more costly ones pushed to be adopted? This is not nimbyism but care for cost and the environment.

Yours sincerely,
Tina Alexander
