Hi,

I am objecting to this as there doesn't seem to be any thought gone into diverting traffic, making 1 way systems, parking suspensions to make tight roads wider and safer.

We have a small family run Plumbing and Heating business in Uppermill. We employ local engineers from Saddleworth and Mossley and have 8 vans on the road. Our engineers need to have access to the office on Bridge Street, Uppermill in order to access tools and equipment. If the proposed work goes ahead what plans are in place to keep traffic moving. Will there be a temporary bridge, no parking on Shaw Hall Bank Road, Chapel Lane? One way traffic from Greenfield to Dobcross on the back road past the golf club?

Kind regards

Martin Tomlinson  
Eric Entwistle Ltd
