Re: Support for the Transport and Work Act Order to the Department for Transport (DfT) for a new busway to the southeast of Cambridge.

Paul Sanwell
[REDACTED]

I believe this plan to build a new busway from an interchange on the A11, near Babraham, to Addenbrookes Hospital, near to the new Cambridge South Railway Station, via the outlying parts of the Villages of Sawston, Stapleford & Shelford is an inspired design that will provide transport services to the areas of these villages that are not served by existing public transport. It will also improve connections to the Rail Network that presently Sawston does not have.

I am very keen to see this project completed and believe it will benefit the local area immensely, and far from spoiling the countryside it will in fact open it up to more access, especially to the Public Spaces around the Gog Magog Hills.

Please fast track this project.

Regards
Paul Sanwell
