Subject: Objection to the Cambourne to Cambridge Busway. Application for a Transport and Work Act Order -submitted by Greater Cambridge Partnership
Date: 03 January 2025 14:16:19

Dear Secretary of State for Transport,

Objection to the Cambourne to Cambridge Busway. Application for a Transport and Work Act Order -submitted by Greater Cambridge Partnership

I am a long term householder and resident of Gough Way and I am seriously concerned that the Gough Way estate has been excluded from the flood risk assessment for this plan despite the fact that the plan's Bin Brook bridge and embankment structure could potentially increase the flood risk to the Gough Way estate.

In fact the flood risk to Gough Way has not been addressed at all in this submission.

Therefore I am extremely worried that the flood risk for my property could be increased by this submission. Especially as during a previous flood on Gough Way the worst affected properties were only a few houses away from my property.

I therefore think that the proposed route via Adams Rd for this busway is a much safer option in terms of flood risk and that this should be chosen instead.

From Mrs C. Newcombe, [REDACTED]
