Subject: Support for Transport and Work Act Order to the Department for Transport (DfT) for a new busway linking Cambourne to Cambridge
Date: 05 January 2025 13:29:10

I'm in support of the proposed busway route through Coton. My main reasons are:

- this is a faster route
- I haven't seen plans for an alternative and doubt there would be room next to the existing road.
- this would provide a good walking and cycling path for those coming from north Hardwick or the proposed estate in Bourn.
- the Greenway cycle route is awkward unless you live in south Hardwick or old Bourn because you have to cycle down a narrow and relatively busy road to reach the proposed Greenway path
- I don't agree that the 'ancient orchard' will be missed. It hasn't been harvested for decades - the apples fall and rot. The famous 100 yr old Bramley trees can only be expected to fruit for a few more decades.
- I don't agree it will spoil the view from Madingly Cemetery unless you view it from an aerial drone.

I realise you won't get many emails like this because there's a well-organised campaign against the development and no campaign for it. Therefore I hope you'll treat this email as representing the views of a significant silent section of the local population.

Dr David Instone-Brewer,
