Subject: Objection to proposed railway works in Mossley
Date: 19 December 2025 12:29:14

You don't often get email from [REDACTED]. [Learn why this is important](#)

Hi I would like to register my objection to the proposed works that involve Mill Lane, Archer Street and Brookfields to access the building site for Mossley's new train station.

I have seen what many of my neighbours gave written already and am fully in agreement with them. Mill Lane and Archer Street are far too narrow to allow regular access to lorries and vans. There is already more traffic than the area can cope with and any further loss of parking will be catastrophic to an area which already has stiff competition for the scarce spaces. As a resident of [REDACTED] with one disabled member of the household, our lives would be simply impossible if parking were to be moved further away from our property or done away with altogether.

Any measures which result in increased traffic to the area of Mill Lane and Archer St would be disastrous and only a matter of time before a fatality occurs,

Kind regards

Sam Taylor
