I, Dr Alan Baker of [REDACTED], am writing to make a formal objection to the “Application for a Transport and Work Act Order to the Department for Transport (DfT) for a new busway to the southeast of Cambridge”, as submitted by the Cambridge Greater Partnership on 9 January 2025.

The construction of 5 miles of new road through open countryside is **unnecessary** to deliver improvements in transport. Similar transport and economic benefits can be achieved by building a version of the scheme first proposed by the applicant in 2018.

The application if approved would **destroy green space** close to the city of Cambridge, to the disadvantage of its residents who value it for leisure and recreation as a release from urban pressures,
