Subject: Tackley bridleway

To whom it may concern

I am a local land and horse owner.

I'm writing with regards to the new bridle way in tackley, Oxfordshire that will have a long stretch along side the train track.

This is a ride we use regularly and in my opinion this would become unusable with the new planned route. I also believe it would only be a matter of time until there would be a serious accident for animal or human.

there was NO attempt to engage with riders, either locally or nationally (it was us who brought the BHS in).

To our knowledge there have been no equine accidents at the crossing - you are therefore shifted a situation of no risk to one of considerable risk, both to riders and other users of the bridleway (when the first Key Benefit in their report is Safety Improvements).

Please please reconsider
