Subject: Brett Aggregates new Public Access Strategy
Date: 09 March 2026 15:44:38

Dear Sirs

I would like to register my objection to Brett Aggregates' new Public Access Strategy for the proposed quarry on Ellenbrook Fields. I am a keen user of the park, regularly running around its perimeter, and in my opinion the proposals do not protect the amenity of residents and users of the park. The proposed routes are supposed to be "attractive and unfettered", but these new proposals will be anything but. We will lose more than half of the old concrete taxiway, one of the main routes across the park, and the alternative routes comprising narrower gravel paths or grass paths will make poor substitutes. These footpaths, bordered by bunds and fencing and close to quarry workings, will be an eyesore and unusable in winter. They will certainly not support "attractive and unfettered" access. There will be crossings and working vehicles to navigate, reducing the freedom of users to roam around the park - a particular issue for children and dog users.

Yours faithfully

David Roffe
