Subject: Objection to the Tackley bridleway rerouting

To whom it may concern,

I am writing to raise my objection to the proposed rerouting of the bridleway in Tackley.

I am a local resident with baby twins and a large twin pram, I would not be able to walk the proposed route due to the safety risks that would be raised. I am also a horse rider and this route would put pedestrians and horse riders at risk with the close proximity to the train line, even the calmest horse ridden by a competent rider can be spooked by a train. If a horse was spooked in a closed corridor this could have horrific consequences for all users of the bridleway. In this situation I would not be able to get out of the way with my pram if this occurred.

I have lived in Tackley my whole life and I believe this option would put more people at risk than the level crossing ever did

I would also like to add that the current footbridge has stopped me being able to use the train or the bridleway as it is not accessible.

Many thanks,
Hannah
