GCP CSET proposed route change in Stapleford

This consultation has now closed – thank you for your contributions.

Results of the consultation will be presented to the GCP

Joint Assembly and Executive Board later this year and will be published online at www.greatercambridge.org.uk/CSET-background

Update Monday 18 July 2022: the consultation has relaunched, the closing date has been extended and the deadline for responses is midday on Tuesday 30 August 2022.

We will take all responses received so far into separate consideration and will be contacting those who have given us permission for any clarification they may wish to give us.

We apologise for any inconvenience that might have been caused.

The Cambridge South East – Better Public Transport and Active Travel project will provide better public transport and sustainable travel options for those who travel in the A1307 and A1301 area, improving journey times, reliability, and linking communities and employment sites in the area south east of Cambridge and beyond.

The project consists of:

- a new off-road bus link between the A11 and the Cambridge Biomedical Campus via Sawston, Stapleford and Great Shelford
- a new travel hub near the A11/A1307/A505 to give more opportunities for sustainable travel in addition to the existing Babraham Road Park & Ride
- a new active travel path

The proposed route change in Stapleford

Proposals for a retirement village in Stapleford have recently been approved on appeal by the Government's Planning Inspectorate. This means we need to amend the bus route and the location of the Stapleford bus stop to avoid the new

retirement village. We would like to hear your views on two options for how we might do that. [Please see the consultation leaflet for details.](#)

Have your say

Let us know your views on the options by completing the [online survey below](#).

You can also call us on 01223 699906, email your response to consultations@greatercambridge.org.uk or write to us at Greater Cambridge Partnership, PO Box 1493, Mandela House, 4 Regent Street, Cambridge CB1 0YR.

The consultation will close at midday on **Tuesday, 30 August 2022**.

Next Steps

Results of the consultation will be presented to the GCP Joint Assembly and Executive Board later this year and will be published online at www.greatercambridge.org.uk/CSET-background

Should the Executive Board approve the scheme to be taken forward, a Transport and Works Act Order application would be submitted to the Department for Transport.

Survey

CLOSED: This survey has concluded.
