Subject: Objection to Guided Busway in S. Cambs

I am writing make a formal objection to the application by the dft for a new busway to the SE of Cambridge through greenbelt land. The route is on the outskirts ion the villages and, therefore of limited value to the inhabitants living there. Has anyone looked at the numbers of people who are likely to use the new very expensive route? A much cheaper alternative would be to construct a bus and emergency vehicle road alongside the existing A1304. It would also be less damaging to the, at present, unspoilt countryside.
