Dear sirs

You have an opportunity here to help safeguard our grand children's enjoyment of open space. The UK is the worst country in Europe for degrading the natural environment with loss of habitat and wild life.

This bus way will only make things worse for all of us. Why not stand back and review your decision to go ahead. If you don't you will regret it for years to come.

We will applaud you and congratulate you should you decide to enlarge the A1307 saving many millions of pounds and with reduced disruption to our local community due to the work required affecting many of our local roads.
