To whom it may concern,

As a resident of Greenfield, I am writing to object to the proposals concerning the Network Rail Stalybridge to Diggle TWA Order.

I understand the bridge at the station, and subsequently the main road, will be closed for around 20 weeks.

It would have been helpful to have already received notifications of what the proposed alternative routes are. The roads around this area are small and narrow. This is going to cause severe, major disruption. How on earth will emergency services pass on these roads, when they are even more clogged up with people who simply cannot reverse to let other vehicles pass?!

Please let residents and businesses know what your intentions are regarding alternative routes well in advance and, if necessary, make common sense amendments to any such proposals.

Best regards/Mit freundlichen Grüßen/Saludos cordiales,

Ben McKinsty
Account Manager
