INTRODUCTION

This short note has been prepared to illustrate the updated bus timetables for bus services that run between Cambourne and Cambridge, previously noted in Table 4.2 of the November 2024 Transport Assessment (CD Reference: CD1-25.01). Additionally, an overview of the timetable for the Cambridgeshire Guided Busway is provided below.

CAMBOURNE TO CAMBRIDGE BUS SERVICES

An updated overview of the timetable for services that operate between Cambourne to Cambridge are shown in **Table 1** overleaf. Whilst Table 4.2 of the November 2024 Transport Assessment (CD Reference: CD1-25.01) also notes the X2 and X3 services, these have not been included in **Table 1** as they operate between Huntingdon and Cambridge (so do not travel within the vicinity of the proposed route between Cambourne and Cambridge).

Nevertheless, **Table 1** shows that between the two services that operate between Cambourne and Cambridge (Service 4 and Service 18) there can be up to five bus services travelling per hour between the settlements. Additionally, whilst it does not stop in Cambourne anymore, information on the 905 service has been provided as this service does pass Cambourne on the A428.

Additionally, Figure 4.3 of the November 2024 Transport Assessment (CD Reference: CD1-25.01), illustrates the frequencies of bus services operating from the west of Cambridge during a typical Monday AM Peak (07:00-09:00).

CAMBRIDGESHIRE GUIDED BUSWAY

An overview of the services operating on the Cambridgeshire Guided Busway is provided in **Table 2**. This includes all services operating on the Guided Busway. Additionally, an illustrative plan has been provided in **Figure 1** to show the routes of each service operating on the Cambridgeshire Guided Busway.

It should be noted that the U1 / U2 services, which serve the Cambridge Biomedical Campus, serve the bus stops along Grange Road, before providing connectivity into the centre of Cambridge. However, Grange Road is not a part of the existing guided busway route, instead, the U1 / U2 services use the guided busway route between Cambridge Railway Station and the Cambridge Biomedical Campus.

Table 2 - Cambridgeshire Guided Busway Timetable Overview

Service		Weekday		Saturday		Sunday	
No.	Route	First Service / Last Service	Average Frequency	First Service / Last Service	Average Frequency	First Service / Last Service	Average Frequency
