Dear Sirs/Madams

The proposal for the Cambourne Busway should not go ahead. It will cause untold environmental damage. The ancient orchard harbours important local wildlife. Also the excess runoff into Bin Brook will lead to more erosion and increase risk of local flooding. I live near Bin Brook on Barton Rd and have seen the bank erosion getting worse each year with increased winter rainfall, likely linked to global warming. The future increases in rainfall and rising ground water levels have not been considered by GCP.

This proposal must be turned now. It doesn't even provide much saving of journey time.

Yours sincerely

Judith Driscoll
