Subject: Objection to Transport and Work Act Order to the Department for Transport (DfT) for a new busway linking Cambourne to Cambridge
Date: 05 January 2025 15:42:02

I, Gabriele Reifenberg, of [REDACTED], am writing to make a formal objection to the 'Application for a Transport and Work Act Order to the Department for Transport (DfT) for a new busway linking Cambourne to Cambridge', as submitted by the Cambridge Greater Partnership (GCP) on 12 November 2024.

While I definitely support improvement of public transport, I consider that this scheme does not perform such a function. That is because the on-road alternative following the A1303, which would provide a more direct route to the Cambridge biomedical campus than the one proposed, has not been properly assessed by the GCP. Moreover, the benefit cost ratio for the GCP scheme is less than 0.5 which means it is very poor value for money and therefore does not meet the Department's criteria for considering such a scheme.

I trust that my objection and that of others will be given due consideration and accepted. Regards, Gabriele Reifenberg
