Subject: Objection to Transport and Work Act Order to the Department for Transport (DfT) for a new busway to the southeast of Cambridge

To the Secretary of State for Transport

I, Stephen Sutton, of [REDACTED] am writing to make a formal objection to the “Application for a Transport and Work Act Order to the Department for Transport (DfT) for a new busway to the southeast of Cambridge”, as submitted by the Greater Cambridge Partnership (GCP) on 9 January 2025.

The proposed scheme would be hugely expensive and damaging to the local environment. It is also unnecessary: there is an alternative scheme – proposed by the GCP itself in 2018 – that would be much less expensive, deliver similar benefits and have far less impact on the environment.

It is unclear why the GCP seems determined to press ahead with the more expensive and more damaging scheme, ignoring local objections, when there is a much better alternative that would be more acceptable to local residents.

I urge you to reject the GCP’s proposal.
