Subject: Objection to Cambourne to Cambridge busway
Date: 06 January 2025 12:21:51

Dear Secretary of State for Transport,

I am writing to register an objection to the application submitted by the Greater Cambridge Partnership for the proposed Cambourne to Cambridge busway.

I am very concerned about damage to the environment including the historic West Fields and Coton Orchard, and about loss of precious countryside, biodiversity and amenity for residents. As a resident of Gough Way I am also concerned about significant flood risk to Gough Way from the proposed bridge over Bin Brook (which takes water from a wide area including the M11) and embankment structure which could act as a dam, resulting in water backing up upstream. A culvert for Bin Brook was constructed under Gough Way, but is often almost full, and only yesterday (5th January), after a few hours of normal rainfall, I noticed that the water was only about a foot (30 cm) at most from the top of the culvert. There have been serious floods in this road on more than one occasion, for example in 2001 when many houses were flooded.

Thank you very much for considering my objection.
Yours faithfully,

Mrs Helen Gibbens
