we have lived in village since 1977. and we have walked the current bridleway regularly in all the years we have lived here in our lovely village. We object to the british rail who have decided to close and try to re route our bridle way. it will pose great threat to the local community when horses are having to ride along the proposed re routed bridle way the train noise could spook the horse causing injury to riders and horses and any local person who may also be walking along the path bridleway when the horse gets spooked / we object to british rail making law in these proposed plans to reroute our bridleway then in the small print hide a later threat .

we care about our bridleway and our village . we live here and enjoy many walks along the existing bridleway and have done so for many many years they give the impression they take our opinion in to account then they decide to do what they want.

vanessa schofield rgn and dr robin schofield
