Subject: Ellenbrook fields - objections to Brett's new strategy

Dear Madam,

Brett's plans will take away approximately 60% of the old concrete taxiway, currently much-used as a path. This concrete taxiway makes the local amenity of Ellenbrook fields accessible to disabled users in wheelchairs and mobility scooters, as well as to families with pushchairs. These groups deserve consideration and access to the countryside for the sake of their health, both physical and mental.

Brett's proposed replacement paths composed of grass and gravel will not supply the needs of these groups. This is because they swiftly become boggy and impassable in rainy weather. Grass and gravel paths in the St Albans area have become quagmires overwinter recently.

I ask that you do not allow Brett's plans to go ahead.

Clare Harvey, [REDACTED]
