hello - i wonder, will you even bother to read this?

just so i know, please confirm receipt of this email

Objection to Transport and Work Act Order to the Department for Transport for a new busway linking Cambourne to Cambridge as submitted by Cambridgeshire County Council on 12 November 2024

below context - why i have taken some of my valuable, limited, time to get in touch with you

further below - *the message, in a sonnet as poetry is easier than prose for you to remember*

my mother and I moved to the [REDACTED] Coton 17.12.1960 on my 6th birthday

I won a bike in a colouring competition on which I subsequently commuted along the Footpath to Park Street Primary School in town till I left age 11, and on non school days would spend most of my time freely cycling and exploring the local area even at that age the whole area stuck me as being a valuable and beautiful environment

and although we moved away when my mother remarried she returned after my adoptive father's death, choosing to retire to Coton

She bought the house along the footpath from the family of my 1960's local friend (also) Kay

I still have that house and in my turn plan to retire to it when i get old (er) way in the future

SONNET -

so many years so many ways we say

the Cambourne Cambridge Busway is no good

the damage, and the money you would pay

just does not justify it when you could

choose other better methods into town

so many smarter options do exist

to benefit all people, town and gown

yet all these years have passed and you insist

in killing off the circle status quo

of villages surrounding Cambridge green

the Meadows and the Orchard that we know

are irreplaceable, and should be seen

as living 'future history' sustained

if you destroy this you should be ashamed
