Dear Sir/Madam,

I have just come across this project whilst reading the news. It is good that buses are being taken into consideration for transport, but not, in my opinion, at the expense of an old and beautiful landscape. Surely enough has been said and accepted about green spaces and mental health. If you want to be purely material/financial about it, anything house wise built with that on the doorstep will increase the house prices. There are , apparently plenty of other ways to do this, perhaps more expensive and less direct, who knows, but this greenery should be left as it is for the benefit of those who live and work in the area. This is already enshrined in a Charity. I must admit I'm starting to wonder if we live in a democracy anymore as people bulldoze their way through land and people without a thought. Please do not ruin this orchard and environs.
