Date: 14 March 2026 18:25:11

Re. Appeal against the Refusal of Planning permission for a new quarry at the former Hatfield Aerodrome Application Ref. PL/0232/21

Dear Madam

I OBJECT in the strongest possible terms to this application by Brett Aggregates. The public access across a potential working quarry will be utterly unusable. The dust, noise, landscape bunds, fencing and pollutants in the air, and public safety concerns during 32 years of extraction! makes the idea you can combine public access with a working quarry a total joke. It will be a hell-hole, not a place anyone wants to walk.

The first phase will be immediately adjacent Hertfordshire University outdoor sports pitches and gymnasium and will ignore the University's duty of care to their students, because of the noise, pollutants and dust referred to above. It will also be immediately opposite housing on the Ellenbrook estate.

Are you mad!

Just Stop this application now.

Mrs S. Howard
