Good Morning

As a long term resident of Cambridge I am writing to log my deep concerns about the proposed route for the busway through greenbelt and in particular through the Coton corridor and orchard. There are serious cheaper alternatives which will preserve these precious green areas and biodiversity and what is proposed is a destructive development. Alternatives have been seriously looked in and proposed . They are a less damaging, more cost-effective route that uses existing transport corridors, meeting transport needs without causing irreparable harm to our countryside and wildlife.

I request as a resident taxpayer that the long term picture is looked at carefully, the genuine concerns of locals who will be using the busway are addressed and a less destructive and invasive scheme adopted. Cambridge is on the edge of destroying so much of what makes it unique, and our legacy will not be looked on favourably by our children and grandchildren.

Yours faithfully

Rachel Begbie
