[Report Suspicious](#)

Good afternoon,

I have lived in Tackley for over 30 years and have always enjoyed using the bridleway in question both as a horse rider and walker.

I object to the closure of this bridleway, which is a centuries-old public right of way, for several reasons:

Firstly, when I attended consultation meetings regarding the closure of the crossing at Tackley Station, I do not recall the possibility of closing the bridleway on the other side of the station ever being raised.

Secondly, while the NR07 consultation report made reference to the construction of a subway (an underpass) and developer's bridge as feasible, safe options, there have been no further consultations regarding either. Surely keeping pedestrians, walkers, cyclists, and horse riders safe remains a top priority?

And yet, thirdly, there have been no published consultations with OCC public rights of way.

Fourthly, as any horse rider will concur, the proposal to open a bridleway alongside the railway with all its high-speed cross-country trains is extremely dangerous for both riders and the general public, and so totally unacceptable.

I do hope you will consider my objections and concerns.

Yours faithfully,
Jan Usvyat
