You don't often get email from [REDACTED] [Learn why this is important](#)

Objection to proposed closure of path 209 ,and proposed usage of path 244 for a railway crossing.

Grounds of objection:

- 1) Safety of exit of footpath 244 onto main road.
- 2) Safety of path-way244 itself.

Objector: Mr.Peter Edmondson, [REDACTED]
email [REDACTED]

1a) Inappropriate site for egress onto Oldham Rd,visibility for pedestrians and drivers at entrance exit poor.On dark nights and early mornings when people are not wearing reflective gear it is impossible to see them there.There is no traffic island in the carriageway at that crossing point to provide a degree of refuge.

2a) There is no comparison between 244 and 209 in terms of pathway safety in itself.Being in the South Pennines Uppermill is subject to adverse weather conditions frequently.The pathways across terrain are chalk and cheese,with 244 being immeasurably worse,hence to use of 209.

Thank you

Peter Edmondson.
