To whom it may concern

I wish to object to the clearance of Brookfields in Mossley to make way for the 'site compound' to move the train station.

A new station and electrified line are all well and good, but clearing and levelling all this land to store equipment and materials.

I realise that there have been complaints and many incidents regarding parking of contractors on Manchester Road, but the loss of this land at Brookfields would be a great shame. It is a significantly used area and footpath for local residents and I personally use it many times a week. It is utilised as a public footpath for children and adults walking to and from both High and Primary schools and an area for walking dogs and general rambling.

Our town considers it a valuable natural space and resource. Many residents have been trying to stop this area being redeveloped for years and years.

I hope that your Department will reconsider or amend the plans.

Yours sincerely

Mrs Tegwen Matthews
