Dear Ms Alexander,

As a resident of the Gough Way estate in Cambridge I would like to register an objection to the application for the proposed Cambourne to Cambridge busway, submitted by the Greater Cambridge Partnership.

Bin Brook runs through our estate and is often running high after rain or snow melt. I am concerned that the proposed new bridge and embankment structure crossing the brook would act like a dam in such situations and therefore significantly increase the flood risk to houses in Gough Way estate. The recent GCP application for a Transport and Work Act Order for the busway does not contain any consideration of the flood risk to the Gough Way estate, even though it lies just upstream of the land that the proposed busway would cross.

I therefore object to the proposed route of the Cambourne to Cambridge busway, and would also query the reasoning for pursuing a route that does not use existing roads (e.g. Madingley Road, which never seems to be particularly busy).

Best wishes,

Dr Susanne Maclay
