London, SW1P 4DR

Dear Sir/Madam

As a householder on the Gough Way estate in Cambridge, I would like to express my objection to the proposed route for the Cambourne to Cambridge (C2C) busway on the following grounds:

Having seen the proposed route for the C2C bus route, I am concerned about the flood risk to the Gough Way estate that will be introduced by the bridge and embankment structures that are required to route across Bin Brook. Given the historic flooding that has occurred on Gough Way, I am worried that this has not been given any consideration on deciding this route over the alternative route via Adam's Road, as the Gough Way estate has not been included in the Application Documents and Plans.

The last flooding that occurred on Gough Way extended to about 5 or 6 houses from ours so I am worried that any increased risk may result in our house being flooded in the future.

Regards, Ian Newcombe.
