Cambridge South East Transport busway Transport and Works Act Order application

Natural England is a non-departmental public body. Our statutory purpose is to ensure that the natural environment is conserved, enhanced, and managed for the benefit of present and future generations, thereby contributing to sustainable development.

Correspondence about this consultation should be sent to the case officer, Catherine Duerden, via email at catherine.duerden@naturalengland.org.uk and copied to consultations@naturalengland.org.uk.

We do not intend to make oral representations at any hearings that may be called but would instead submit further written representations as required. We would also be open to providing further advice to the applicant via Natural England's existing Discretionary Advice Service (DAS) agreement with the Greater Cambridge Partnership (GCP).

Yours faithfully,

Catherine Duerden
Higher Officer - Sustainable Development, West Anglia Team

Natural England's Representation

The Cambridge South East Transport (CSET) team have proactively engaged with Natural England during the initial phases of design development. Natural England is satisfied that the amendments suggested in pre-application discussions and letters have been included within the submitted Environmental Statement [CSET 10-02-00 ES Volume 2 Main Report].

We do not currently have any outstanding matters to be addressed, but reserve the right to make comments at a later date should issues relevant to our remit arise.
