Subject: Objection to Transport and Work Act Order, South Cambs

I, J H West of [REDACTED], am writing to make a formal objection to the application for a Transport and Work Act Order to the DfT for a new busway to the south of Cambridge as submitted by the Greater Cambridge Partnership on 9 January 2025..

My reasons are as follows:

- 1) It needlessly destroys green belt land - an alternative route is being ignored.
- 2) It is a waste of money. The alternative route, which uses existing roadways, is much cheaper.
- 3) The green belt land it would destroy - the Gog Magog Hills - is especially precious.
- 4) The proposed busway ill serves the village I live in - Stapleford - as the bus stops are at one end of the village only. Most residents would therefore carry on using other bus routes.
- 5) The GCP is not a fully democratic organisation - it should not be allowed to ignore the will of the people.

Yours

JH West
