I appreciate the need for improving the rail structure and the necessity to move Mossley railway station.

However I am concerned about the following

1 That the current station building is gifted to the people of Mossley to be devoted as a visitors centre

2 That the area of Brookfields is NOT used for buildings, storage and vehicles as this is a site with much wild life which the town has sort to preserve for many years now

3 That access from Mill Lane is NOT used as it is a very narrow street with a low railway bridge and most importantly a primary school.

I urge that an alternative site be developed for the materials and vehicles needed for the construction of the new station.

Thank you, Christine Lyness MBE
