[Report Suspicious](#)

Dear Sirs,

I, as a resident of Tackley and regular user of the current Bridleway under consultation for re-routing, wish to register my objection to this plan.

The current Bridleway is well utilised by residents of Tackley and Kirtlington, as well as providing access to the village by visitors from the canal and has been so for many years.

The Bridleway is well appointed, directing away from the railway line, alongside open fields, thus making it a safe option for everyone and offers good circular walks from both villages. It is wide enough for all users to share at the same time.

The proposed new route takes the path directly alongside a busy rail line which carries regular fast passenger and freight trains which can endanger users, scare animals and subject people to frequent loud noise. This is not the case with the current situation.

It would be a shame to lose this valuable resource. Hence my objection.

It is my hope this consultation results in the maintenance of the status quo.

Your faithfully,

Kirsty Scott
