1.— Preliminary.

- (1) The following provisions have effect for the interpretation of this Part.
- (2) The “environment” consists of all, or any, of the following media, namely, the air, water and land; and the medium of air includes the air within buildings and the air within other natural or man-made structures above or below ground.
- (3) “Pollution of the environment” means pollution of the environment due to the release (into any environmental medium) from any process of substances which are capable of causing harm to man or any other living organisms supported by the environment.
- (4) “Harm” means harm to the health of living organisms or other interference with the ecological systems of which they form part and, in the case of man, includes offence caused to any of his senses or harm to his property; and “harmless” has a corresponding meaning.
- (5) “Process” means any activities carried on in Great Britain, whether on premises or by means of mobile plant, which are capable of causing pollution of the environment and “prescribed process” means a process prescribed under section 2(1) below.

(6) For the purposes of subsection (5) above—

“activities” means industrial or commercial activities or activities of any other nature whatsoever (including, with or without other activities, the keeping of a substance);

“Great Britain” includes so much of the adjacent territorial sea as is, or is treated as, relevant territorial waters for the purposes of [Part III of the Water Resources Act 1991]¹ or, as respects Scotland, Part II of the Control of Pollution Act 1974; and

“mobile plant” means plant which is designed to move or to be moved whether on roads or otherwise.

(7) The “enforcing authority”, in relation to England and Wales, is [the Environment Agency or the local authority by which]², under section 4 below, the functions conferred or imposed by this Part otherwise than on the Secretary of State are for the time being exercisable in relation respectively to releases of substances into the environment or into the air; and “local enforcing authority” means any such local authority.

[(8) In relation to Scotland, references to the “enforcing authority” and a “local enforcing authority” are references to the Scottish Environment Protection Agency (in this Part referred to as “SEPA”).]³

(9) “Authorisation” means an authorisation for a process (whether on premises or by means of mobile plant) granted under section 6 below; and a reference to the conditions of an authorisation is a reference to the conditions subject to which at any time the authorisation has effect.

(10) A substance is “released” into any environmental medium whenever it is released directly into that medium whether it is released into it within or outside Great Britain and “release” includes—

(a) in relation to air, any emission of the substance into the air;

(b) in relation to water, any entry (including any discharge) of the substance into water;

(c) in relation to land, any deposit, keeping or disposal of the substance in or on land;

and for this purpose “water” and “land” shall be construed in accordance with subsections (11) and (12) below.

(11) For the purpose of determining into what medium a substance is released—

(a) any release into—

(i) the sea or the surface of the seabed,

(ii) any river, watercourse, lake, loch or pond (whether natural or artificial or above or below ground) or reservoir or the surface of the riverbed or of other land supporting such waters, or

(iii) ground waters,

is a release into water;

(b) any release into—

(i) land covered by water falling outside paragraph (a) above or the water covering such land; or

(ii) the land beneath the surface of the seabed or of other land supporting waters falling within paragraph (a)(ii) above,

is a release into land; and

(c) any release into a sewer (within the meaning of [the Water Industry Act 1991]⁴ or, in relation to Scotland, of the Sewerage (Scotland) Act 1968) shall be treated as a release into water;

but a sewer and its contents shall be disregarded in determining whether there is pollution of the environment at any time.

(12) In subsection (11) above “ground waters” means any waters contained in underground strata, or in—

- (a) a well, borehole or similar work sunk into underground strata, including any adit or passage constructed in connection with the well, borehole or work for facilitating the collection of water in the well, borehole or work; or
- (b) any excavation into underground strata where the level of water in the excavation depends wholly or mainly on water entering it from the strata.

(13) “Substance” shall be treated as including electricity or heat and “prescribed substance” has the meaning given by section 2(7) below.

[(14) In this Part “the appropriate Agency” means —

- (a) in relation to England and Wales, the Environment Agency; and
- (b) in relation to Scotland, SEPA.

(1) The Secretary of State may, by regulations, prescribe any description of process as a process for the carrying on of which after a prescribed date an authorisation is required under section 6 below.

(2) Regulations under subsection (1) above may frame the description of a process by reference to any characteristics of the process or the area or other circumstances in which the process is carried on or the description of person carrying it on.

(3) Regulations under subsection (1) above may prescribe or provide for the determination under the regulations of different dates for different descriptions of persons and may include such transitional provisions as the Secretary of State considers necessary or expedient as respects the making of applications for authorisations and suspending the application of section 6(1) below until the determination of applications made within the period allowed by the regulations.

(6) Regulations under subsection (5) above may—

(a) prescribe separately, for each environmental medium, the substances the release of which into that medium is to be subject to control; and

(b) provide that a description of substance is only prescribed, for any environmental medium, so far as it is released into that medium in such amounts over such periods, in such concentrations or in such other circumstances as may be specified in the regulations;

and in relation to a substance of a description which is prescribed for releases into the air, the regulations may designate the substance as one for central control or one for local control.

(7) In this Part “prescribed substance” means any substance of a description prescribed in regulations under subsection (5) above or, in the case of a substance of a description prescribed only for releases in circumstances specified under subsection (6)(b) above, means any substance of that description which is released in those circumstances.

(2) Those functions, in their application to prescribed processes designated for central control, shall be functions of [the appropriate Agency]¹, and shall be exercisable for the purpose of preventing or minimising pollution of the environment due to the release of substances into any environmental medium.

(3) Subject to subsection (4) below, those functions, in their application to prescribed processes designated for local control, shall be functions of—

[(a) in the case of a prescribed process carried on (or to be carried on) by means of a mobile plant, where the person carrying on the process has his principal place of business—

Environment Agency]³ while the direction remains in force or during a period specified in the direction.

(5) A transfer of functions under subsection (4) above to [the Environment Agency]⁵ does not make them exercisable by [that Agency]⁶ for the purpose of preventing or minimising pollution of the environment due to releases of substances into any other environmental medium than the air.

(6) A direction under subsection (4) above may transfer those functions as exercisable in relation to all or any description of prescribed processes carried on by all or any description of persons (a “general direction”) or in relation to a prescribed process carried on by a specified person (a “specific direction”).

(5) The Secretary of State may, if he thinks fit in relation to any application for an authorisation, give to the enforcing authority directions as to whether or not the authority should grant the authorisation.

(6) Subject to subsection (6A) below, the enforcing authority shall, as respects each authorisation in respect of which it has functions under this Part, from time to time but not less frequently than once in every period of four years, carry out a review of the conditions of the authorisation.

(6A) Subsection (6) above shall not require a review of the conditions of an authorisation to be carried out if—

- (a) the prescribed process covered by the authorisation is carried on in a new Part A installation or by means of a new Part A mobile plant;
- (b) the prescribed process covered by the authorisation is carried on in an existing Part A installation or by means of an existing Part A mobile plant and the review would be carried out within the period of two years ending at the beginning of the relevant period for that installation or mobile plant; or
- (c) the prescribed process covered by the authorisation is carried on in an existing Part B installation or by means of an existing Part B mobile plant and the review would be carried out within the period of two years ending on the relevant date for that installation or mobile plant.

(6B) In subsection (6A) above, “new Part A installation”, “existing Part A installation”, “new Part A mobile plant”, “existing Part B mobile plant”, “relevant period”, “existing Part B installation”, “existing Part B mobile plant” and “relevant date” have the meaning given in Schedule 3 to the Pollution Prevention and Control (England and Wales) Regulations 2000.

(7) The Secretary of State may, by regulations, substitute for the period for the time being specified in subsection (6) above such other period as he thinks fit.

(8) Schedule 1 to this Act (supplementary provisions) shall have effect in relation to authorisations.

7.— Conditions of authorisations.

(1) There shall be included in an authorisation—

- (a) subject to paragraph (b) below, such specific conditions as the enforcing authority considers appropriate, when taken with the general condition implied by subsection (4) below, for achieving the objectives specified in subsection (2) below;
- (b) such conditions as are specified in directions given by the Secretary of State under subsection (3) below; and
- (c) such other conditions (if any) as appear to the enforcing authority to be appropriate;

but no conditions shall be imposed for the purpose only of securing the health of persons at work (within the meaning of Part I of the Health and Safety at Work etc. Act 1974).

(2) Those objectives are—

- (a) ensuring that, in carrying on a prescribed process, the best available techniques not entailing excessive cost will be used—
 - (i) for preventing the release of substances prescribed for any environmental medium into that medium or, where that is not practicable by such means, for reducing the release of such substances to a minimum and for rendering harmless any such substances which are so released; and
 - (ii) for rendering harmless any other substances which might cause harm if released into any environmental medium;
- (b) compliance with any directions by the Secretary of State given for the implementation of any ² obligations ¹ or international law relating to environmental protection;
- (c) compliance with any limits or requirements and achievement of any quality standards or quality objectives prescribed by the Secretary of State under any of the relevant enactments;

- (3) Except as respects the general condition implied by subsection (4) below, the Secretary of State may give directions to the enforcing authorities as to the conditions which are, or are not, to be included in all authorisations, in authorisations of any specified description or in any particular authorisation.
- (4) Subject to subsections (5) and (6) below, there is implied in every authorisation a general condition that, in carrying on the process to which the authorisation applies, the person carrying it on must use the best available techniques not entailing excessive cost—
- (a) for preventing the release of substances prescribed for any environmental medium into that medium or, where that is not practicable by such means, for reducing the release of such substances to a minimum and for rendering harmless any such substances which are so released; and
 - (b) for rendering harmless any other substances which might cause harm if released into any environmental medium.
- (5) In the application of subsections (1) to (4) above to authorisations granted by a local enforcing authority references to the release of substances into any environmental medium are to be read as references to the release of substances into the air.
- (6) The obligation implied by virtue of subsection (4) above shall not apply in relation to any aspect of the process in question which is regulated by a condition imposed under subsection (1) above.
- (7) The objectives referred to in subsection (2) above shall, where the process—

- (11) It shall be the duty of enforcing authorities to have regard to any guidance issued to them by the Secretary of State for the purposes of the application of subsections (2) and (7) above as to the techniques and environmental options that are appropriate for any description of prescribed process.

10.— Variation of authorisations by enforcing authority.

(1) The enforcing authority may at any time, subject to the requirements of section 7 above, and, in cases to which they apply, the requirements of Part II of Schedule 1 to this Act, vary an authorisation and shall do so if it appears to the authority at that time that that section requires conditions to be included which are different from the subsisting conditions.

(2) Where the enforcing authority has decided to vary an authorisation under subsection (1) above the authority shall notify the holder of the authorisation and serve a variation notice on him.

(3) In this Part a “variation notice” is a notice served by the enforcing authority on the holder of an authorisation—

(a) specifying variations of the authorisation which the enforcing authority has decided to make; and

(b) specifying the date or dates on which the variations are to take effect;

and, unless the notice is withdrawn [or is varied under subsection (3A) below]¹, the variations specified in a variation notice shall take effect on the date or dates so specified .

[(3A) An enforcing authority which has served a variation notice may vary that notice by serving on the holder of the authorisation in question a further notice—

(a) specifying the variations which the enforcing authority has decided to make to the variation notice; and

(b) specifying the date or dates on which the variations specified in the variation notice, as varied by the further notice, are to take effect;

and any reference in this Part to a variation notice, or to a variation notice served under subsection (2) above, includes a reference to such a notice as varied by a further notice served under this subsection.

] ²

(4) A variation notice served under subsection (2) above shall also—

(a) require the holder of the authorisation, within such period as may be specified in the notice, to notify the authority what action (if any) he proposes to take to ensure that the process is carried on in accordance with the authorisation as varied by the notice; and

[(b) require the holder to pay, within such period as may be specified in the notice,—

(i) in a case where the enforcing authority is the Environment Agency or SEPA, the charge (if any) prescribed for the purpose by a charging scheme under section 41 of the Environment Act 1995; or

(ii) in any other case, the fee (if any) prescribed by a scheme under section 8 above.

] ³

(5) Where in the opinion of the enforcing authority any action to be taken by the holder of an authorisation in consequence of a variation notice served under subsection (2) above will involve a substantial change in the manner in which the process is being carried on, the enforcing authority shall notify the holder of its opinion.

(6) The Secretary of State may, if he thinks fit in relation to authorisations of any description or particular authorisations, direct the enforcing authorities—

(a) to exercise their powers under this section, or to do so in such circumstances as may be specified in the directions, in such manner as may be so specified; or

(b) not to exercise those powers, or not to do so in such circumstances or such manner as may be so specified;

and the Secretary of State shall have the corresponding power of direction in respect of the powers of the enforcing authorities to vary authorisations under section 11 below.

(7) In this section and section 11 below a “substantial change”, in relation to a prescribed process being carried on under an authorisation, means a substantial change in the substances released from the process or in the amount or any other characteristic of any substance so released; and the Secretary of State may give directions to the enforcing authorities as to what does or does not constitute a substantial change in relation to processes generally, any description of process or any particular process.

(8) In this section and section 11 below—

“prescribed” means prescribed in regulations made by the Secretary of State;

[“vary”

(a) in relation to the subsisting conditions or other provisions of an authorisation, means adding them or varying or rescinding any of them; and

(b) in relation to a variation notice, means adding to, or varying or rescinding the notice or any of its contents;

] ⁴

and “variation” shall be construed accordingly.

11.— Variation of conditions etc: applications by holders of authorisations.

(1) A person carrying on a prescribed process under an authorisation who wishes to make a relevant change in the process may at any time—

- (a) notify the enforcing authority in the prescribed form of that fact, and
- (b) request the enforcing authority to make a determination, in relation to the proposed change, of the matters mentioned in subsection (2) below;

and a person making a request under paragraph (b) above shall furnish the enforcing authority with such information as may be prescribed or as the authority may by notice require.

(2) On receiving a request under subsection (1) above the enforcing authority shall determine—

- (a) whether the proposed change would involve a breach of any condition of the authorisation;
- (b) if it would not involve such a breach, whether the authority would be likely to vary the conditions of the authorisation as a result of the change;
- (c) if it would involve such a breach, whether the authority would consider varying the conditions of the authorisation so that the change may be made; and
- (d) whether the change would involve a substantial change in the manner in which the process is being carried on;

and the enforcing authority shall notify the holder of the authorisation of its determination of those matters.

(3) Where the enforcing authority has determined that the proposed change would not involve a substantial change, but has also determined under paragraph (b) or (c) of subsection (2) above that the change would lead to or require the variation of the conditions of the authorisation, then—

- (a) the enforcing authority shall (either on notifying its determination under that subsection or on a subsequent occasion) notify the holder of the authorisation of the variations which the authority is likely to consider making; and
- (b) the holder may apply in the prescribed form to the enforcing authority for the variation of the conditions of the authorisation so that he may make the proposed change.

(4) Where the enforcing authority has determined that a proposed change would involve a substantial change that would lead to or require the variation of the conditions of the authorisation, then—

- (a) the authority shall (either on notifying its determination under subsection (2) above or on a subsequent occasion) notify the holder of the authorisation of the variations which the authority is likely to consider making; and
- (b) the holder of the authorisation shall, if he wishes to proceed with the change, apply in the prescribed form to the enforcing authority for the variation of the conditions of the authorisation.

(5) The holder of an authorisation may at any time, unless he is carrying on a prescribed process under the authorisation and wishes to make a relevant change in the process, apply to the enforcing authority in the prescribed form for the variation of the conditions of the authorisation.

(6) A person carrying on a process under an authorisation who wishes to make a relevant change in the process may, where it appears to him that the change will require the variation of the conditions of the authorisation, apply to the enforcing authority in the prescribed form for the variation of the conditions of the authorisation specified in the application.

(7) A person who makes an application for the variation of the conditions of an authorisation shall furnish the authority with such information as may be prescribed or as the authority may by notice require.

(8) On an application for variation of the conditions of an authorisation under any provision of this section—

(a) the enforcing authority may, having fulfilled the requirements of Part II of Schedule 1 to this Act in cases to which they apply, as it thinks fit either refuse the application or, subject to the requirements of section 7 above, vary the conditions or, in the case of an application under subsection (6) above, treat the application as a request for a determination under subsection (2) above; and

(b) if the enforcing authority decides to vary the conditions, it shall serve a variation notice on the holder of the authorisation.

[(9) Any application to the enforcing authority under this section shall be accompanied—

(a) in a case where the enforcing authority is the Environment Agency or SEPA, by the charge (if any) prescribed for the purpose by a charging scheme under section 41 of the Environment Act 1995; or

(b) in any other case, by the fee (if any) prescribed by a scheme under section 8 above.

] ¹

(10) This section applies to any provision other than a condition which is contained in an authorisation as it applies to a condition with the modification that any reference to the breach of a condition shall be read as a reference to acting outside the scope of the authorisation.

(11) For the purposes of this section a relevant change in a prescribed process is a change in the manner of carrying on the process which is capable of altering the substances released from the process or of affecting the amount or any other characteristic of any substance so released.

22.— Exclusion from registers of certain confidential information.

(1) No information relating to the affairs of any individual or business shall be included in a register maintained under section 20 above, without the consent of that individual or the person for the time being carrying on that business, if and so long as the information—

- (a) is, in relation to him, commercially confidential; and
- (b) is not required to be included in the register in pursuance of directions under subsection (7) below;

but information is not commercially confidential for the purposes of this section unless it is determined under this section to be so by the enforcing authority or, on appeal, by the Secretary of State.

(2) Where information is furnished to an enforcing authority for the purpose of—

- (a) an application for an authorisation or for the variation of an authorisation;
- (b) complying with any condition of an authorisation; or
- (c) complying with a notice under section 19(2) above;

then, if the person furnishing it applies to the authority to have the information excluded from the register on the ground that it is commercially confidential (as regards himself or another person), the authority shall determine whether the information is or is not commercially confidential.

(3) A determination under subsection (2) above must be made within the period of fourteen days beginning with the date of the application and if the enforcing authority fails to make a determination within that period it shall be treated as having determined that the information is commercially confidential.

(4) Where it appears to an enforcing authority that any information (other than information furnished in circumstances within subsection (2) above) which has been obtained by the authority under or by virtue of any provision of this Part might be commercially confidential, the authority shall—

- (a) give to the person to whom or whose business it relates notice that that information is required to be included in the register unless excluded under this section; and
- (b) give him a reasonable opportunity—
 - (i) of objecting to the inclusion of the information on the ground that it is commercially confidential; and
 - (ii) of making representations to the authority for the purpose of justifying any such objection;

and, if any representations are made, the enforcing authority shall, having taken the representations into account, determine whether the information is or is not commercially confidential.

(5) Where, under subsection (2) or (4) above, an authority determines that information is not commercially confidential—

- (a) the information shall not be entered [in the register]¹ until the end of the period of twenty-one days beginning with the date on which the determination is notified to the person concerned;
- (b) that person may appeal to the Secretary of State against the decision;

and, where an appeal is brought in respect of any information, the information shall not be entered [in the register until the end of the period of seven days following the day on which the appeal is finally determined or withdrawn]² .

[(6) Subsections (5) and (10) of section 15 above shall apply in relation to an appeal under subsection (5) above as they apply in relation to an appeal under that section, but—

(a) subsection (5) of that section shall have effect for the purposes of this subsection with the substitution for the words from “(which may” onwards of the words “(which must be held in private)”; and

(b) subsection (5) above is subject to section 114 of the Environment Act 1995 (delegation or reference of appeals etc).

]³

(7) The Secretary of State may give to the enforcing authorities directions as to specified information, or descriptions of information, which the public interest requires to be included in registers maintained under section 20 above notwithstanding that the information may be commercially confidential.

(8) Information excluded from a register shall be treated as ceasing to be commercially confidential for the purposes of this section at the expiry of the period of four years beginning with the date of the determination by virtue of which it was excluded; but the person who furnished it may apply to the authority for the information to remain excluded from the register on the ground that it is still commercially confidential and the authority shall determine whether or not that is the case.

(9) Subsections (5) and (6) above shall apply in relation to a determination under subsection (8) above as they apply in relation to a determination under subsection (2) or (4) above.

(10) The Secretary of State may, by order, substitute for the period for the time being specified in subsection (3) above such other period as he considers appropriate.

(11) Information is, for the purposes of any determination under this section, commercially confidential, in relation to any individual or person, if its being contained in the register would prejudice to an unreasonable degree the commercial interests of that individual or person.

35.— Waste management licences: general.

(1) A waste management licence is a licence granted by a waste regulation authority authorising the treatment, keeping or disposal of any specified description of controlled waste in or on specified land or the treatment or disposal of any specified description of controlled waste by means of specified mobile plant.

(2) A licence shall be granted to the following person, that is to say—

(a) in the case of a licence relating to the treatment, keeping or disposal of waste in or on land, to the person who is in occupation of the land; and

(b) in the case of a licence relating to the treatment or disposal of waste by means of mobile plant, to the person who operates the plant.

(3) A licence shall be granted on such terms and subject to such conditions as appear to the waste regulation authority to be appropriate and the conditions may relate—

(a) to the activities which the licence authorises, [...]¹

(b) to the precautions to be taken and works to be carried out in connection with or in consequence of those activities;

[(c) to the location of the boundaries of the specified land;]¹

and accordingly requirements may be imposed in the licence which are to be complied with before the activities which the licence authorises have begun or after the activities which the licence authorises have ceased.

(4) Conditions may require the holder of a licence to carry out works or do other things notwithstanding that he is not entitled to carry out the works or do the thing and any person whose consent would be required shall grant, or join in granting, the holder of the licence such rights in relation to the land as will enable the holder of the licence to comply with any requirements imposed on him by the licence.

(5) Conditions may relate, where waste other than controlled waste is to be treated, kept or disposed of, to the treatment, keeping or disposal of that other waste.

(6) The Secretary of State may, by regulations, make provision as to the conditions which are, or are not, to be included in a licence; and regulations under this subsection may make different provision for different circumstances.

(7) The Secretary of State may, as respects any licence for which an application is made to a waste regulation authority, give to the authority directions as to the terms and conditions which are, or are not, to be included in the licence; and it shall be the duty of the authority to give effect to the directions.

[(7A) In any case where—

(a) an entry is required under this section to be made in any record as to the observance of any condition of a licence, and

(b) the entry has not been made,
that fact shall be admissible as evidence that that condition has not been observed.

(7B) Any person who—

- (a) intentionally makes a false entry in any record required to be kept under any condition of a licence, or
- (b) with intent to deceive, forges or uses a licence or makes or has in his possession a document so closely resembling a licence as to be likely to deceive,

shall be guilty of an offence.

(7C) A person guilty of an offence under subsection (7B) above shall be liable—

- (a) on summary conviction, to a fine not exceeding the statutory maximum;
- (b) on conviction on indictment, to a fine or to imprisonment for a term not exceeding two years, or to both.

]²

(8) It shall be the duty of waste regulation authorities to have regard to any guidance issued to them by the Secretary of State with respect to the discharge of their functions in relation to licences.

(9) A licence may not be surrendered by the holder except in accordance with section 39 below.

(10) A licence is not transferable by the holder but the waste regulation authority may transfer it to another person under section 40 below.

(11) A licence shall continue in force until [it ceases to have effect under subsection (11A) below,]³ it is revoked entirely by the waste regulation authority under section 38 below or it is surrendered or its surrender is accepted under section 39 below.

[(11A) A licence shall cease to have effect if and to the extent that the treatment, keeping or disposal of waste authorised by the licence is authorised by a permit granted under regulations under section 2 of the Pollution Prevention and Control Act 1999 [or by an authorisation under regulations under section 18 of the Regulatory Reform (Scotland) Act 2014]⁴ .]³

(12) In this Part “licence” means a waste management licence and “site licence” and “mobile plant licence” mean, respectively, a licence authorising the treatment, keeping or disposal of waste in or on land and a licence authorising the treatment or disposal of waste by means of mobile plant.

- (b) indicate the nature of the works or other things which that condition might require the holder of the licence to carry out or do; and
- (c) specify the date by which, and the manner in which, any representations relating to the condition or its possible effects are to be made to the waste regulation authority by the person on whom the notice is served.

(5) The date which, pursuant to subsection (4)(c) above, is specified in a notice shall be a date not earlier than the date on which expires the period—

- (a) beginning with the date on which the notice is served, and
- (b) of such length as may be prescribed in regulations made by the Secretary of State.

(6) Before the waste regulation authority issues the licence it must, subject to subsection (7) below, consider any representations made in relation to the condition in question, or its possible effects, by any person on whom a notice has been served under subsection (2) above.

(7) Subsection (6) above does not require the waste regulation authority to consider any representations made by a person after the date specified in the notice served on him under subsection (2) above as the date by which his representations in relation to the condition or its possible effects are to be made.

(8) In subsection (3) above—

“owner”, in relation to any land in England and Wales, means the person who—

- (a) is for the time being receiving the rack-rent of the land, whether on his own account or as agent or trustee for another person; or
- (b) would receive the rack-rent if the land were let at a rack-rent,

but does not include a mortgagee not in possession; and

“owner”, in relation to any land in Scotland, means a person (other than a creditor in a heritable security not in possession of the security subjects) for the time being entitled to receive or who would, if the land were let, be entitled to receive, the rents of the land in connection with which the word is used and includes a trustee, factor, guardian or curator and in the case of public or municipal land includes the persons to whom the management of the land is entrusted.

37.— Variation of licences.

(1) While a licence issued by a waste regulation authority is in force, the authority may, subject to regulations under section 35(6) above and to [subsections (2A) and (3)]¹ below,—

(a) on its own initiative, modify the conditions of the licence to any extent which, in the opinion of the authority, is desirable and is unlikely to require unreasonable expense on the part of the holder; and

(b) on the application of the licence holder accompanied by [the charge prescribed for the purpose by a charging scheme under section 41 of the Environment Act 1995]², modify the conditions of his licence to the extent requested in the application.

(2) While a licence issued by a waste regulation authority is in force, the authority shall, except where it revokes the licence entirely under section 38 below, modify the conditions of the licence—

(a) to the extent which in the opinion of the authority is required for the purpose of ensuring that the activities authorised by the licence do not cause pollution of the environment or harm to human health or become seriously detrimental to the amenities of the locality affected by the activities; and

(b) to the extent required by any regulations in force under section 35(6) above.

[(2A) The conditions of a site licence may not be modified under subsection (1) so as to remove any of the specified land referred to in section 35(1) from the licence.]¹

(3) The Secretary of State may, as respects any licence issued by a waste regulation authority, give to the authority directions as to the modifications which are to be made in the conditions of the licence under subsection (1)(a) or (2)(a) above; and it shall be the duty of the authority to give effect to the directions.

(4) Any modification of a licence under this section shall be effected by notice served on the holder of the licence and the notice shall state the time at which the modification is to take effect.

(5) [Section 36(4), (7) and (10)]³ above shall with the necessary modifications apply to a proposal by a waste regulation authority to modify a licence under subsection (1) or (2)(a) above as they apply to a proposal to issue a licence, except that—

(a) the authority may postpone the reference so far as the authority considers that by reason of an emergency it is appropriate to do so; and

(b) the authority need not consider any representations as respects a modification which, in the opinion of the waste regulation authority, will not affect any authority mentioned in the subsections so applied.

(6) If within the period of two months beginning with the date on which a waste regulation authority received an application by the holder of a licence for a modification of it, or within such longer period as the authority and the applicant may at any time agree in writing, the authority has neither granted a modification of the licence in consequence of the application nor given notice to the applicant that the authority has rejected the application, the authority shall be deemed to have rejected the application.

[37A.— Consultation before certain variations.

(1) This section applies where—

- (a) a waste regulation authority proposes to modify a licence under section 37(1) or (2)(a) above; and
- (b) the licence, if modified as proposed, would be subject to a relevant new condition.

(2) For the purposes of this section, a “relevant new condition” is any condition by virtue of which the holder of the licence might be required to carry out any works or do any other thing—

- (a) which he might not be entitled to carry out or do, and
- (b) which he could not be required to carry out or do by virtue of the conditions to which, prior to the modification, the licence is subject.

(3) Before modifying the licence, the waste regulation authority shall serve on every person appearing to the authority to be a person falling within subsection (4) below a notice which complies with the requirements set out in subsection (5) below.

(4) A person falls within this subsection if—

- (a) he is the owner, lessee or occupier of any land; and

- (b) that land is land in relation to which it is likely that, as a consequence of the licence being modified so as to be subject to the relevant new condition in question, rights will have to be granted by virtue of section 35(4) above to the holder of the licence.
- (5) A notice served under subsection (3) above shall—
- (a) set out the relevant new condition in question;
 - (b) indicate the nature of the works or other things which that condition might require the holder of the licence to carry out or do but which he could not be required to carry out or do by virtue of the conditions (if any) to which, prior to the modification, the licence is subject; and
 - (c) specify the date by which, and the manner in which, any representations relating to the condition or its possible effects are to be made to the waste regulation authority by the person on whom the notice is served.
- (6) The date which, pursuant to subsection (5)(c) above, is specified in a notice shall be a date not earlier than the date on which expires the period—
- (a) beginning with the date on which the notice is served, and
 - (b) of such length as may be prescribed in regulations made by the Secretary of State.
- (7) Before the waste regulation authority issues the licence it must, subject to subsection (8) below, consider any representations made in relation to the condition in question, or its possible effects, by any person on whom a notice has been served under subsection (3) above.
- (8) Subsection (7) above does not require the waste regulation authority to consider any representations made by a person after the date specified in the notice served on him under subsection (3) above as the date by which his representations in relation to the condition or its possible effects are to be made.
- (9) A waste regulation authority may postpone the service of any notice or the consideration of any representations required under the foregoing provisions of this section so far as the authority considers that by reason of an emergency it is appropriate to do so.
- (10) In subsection (3) above, “owner” has the same meaning as it has in subsection (3) of section 36A above by virtue of subsection (8) of that section.

38.— Revocation and suspension of licences.

(1) Where a licence granted by a waste regulation authority is in force and it appears to the authority—

- (a) that the holder of the licence has ceased to be a fit and proper person by reason of his having been convicted of a relevant offence; or
- (b) that the continuation of the activities authorised by the licence would cause pollution of the environment or harm to human health or would be seriously detrimental to the amenities of the locality affected; and
- (c) that the pollution, harm or detriment cannot be avoided by modifying the conditions of the licence;

the authority may exercise, as it thinks fit, either of the powers conferred by subsections (3) and (4) below.

(2) Where a licence granted by a waste regulation authority is in force and it appears to the authority that the holder of the licence has ceased to be a fit and proper person by reason of the management of the activities authorised by the licence having ceased to be in the hands of a technically competent person, the authority may exercise the power conferred by subsection (3) below.

(3) The authority may, under this subsection, revoke the licence so far as it authorises the carrying on of the activities specified in the licence or such of them as the authority specifies in revoking the licence.

[(3A) In the case of a site licence, a revocation under subsection (3) may extend to the whole of the land to which the licence extends or to any part of it.]¹

(4) The authority may, under this subsection, revoke the licence entirely.

(5) [Subject to subsection (3A), a]¹ licence revoked under subsection (3) above shall cease to have effect to authorise the carrying on of the activities specified in the licence or, as the case may be, the activities specified by the authority in revoking the licence but shall not affect the requirements imposed by the licence which the authority, in revoking the licence, specify as requirements which are to continue to bind the licence holder.

(6) Where a licence granted by a waste regulation authority is in force and it appears to the authority—

- (a) that the holder of the licence has ceased to be a fit and proper person by reason of the management of the activities authorised by the licence having ceased to be in the hands of a technically competent person; or
- (b) that serious pollution of the environment or serious harm to human health has resulted from, or is about to be caused by, the activities to which the licence relates or the happening or threatened happening of an event affecting those activities; and
- (c) that the continuing to carry on those activities, or any of those activities, in the circumstances will continue or, as the case may be, cause serious pollution of the environment or serious harm to human health;

the authority may suspend the licence so far as it authorises the carrying on of the activities specified in the licence or such of them as the authority specifies in suspending the licence.

[(6A) In the case of a site licence, the suspension may extend to the whole of the land to which the licence extends or to any part of it.]¹

(7) The Secretary of State may, if he thinks fit in relation to a licence granted by a waste regulation authority, give to the authority directions as to whether and in what manner the authority should exercise its powers under this section; and it shall be the duty of the authority to give effect to the directions.

(8) [Subject to subsection (6A), a]¹ licence suspended under subsection (6) above shall, while the suspension has effect, be of no effect to authorise the carrying on of the activities specified in the licence or, as the case may be, the activities specified by the authority in suspending the licence.

(9) Where a licence is suspended under subsection (6) above, the authority, in suspending it or at any time while it is suspended, may require the holder of the licence to take such measures to deal with or avert the pollution or harm as the authority considers necessary.

[(9A) A requirement imposed under subsection (9) above may require the holder of a licence to carry out works or do other things notwithstanding that he is not entitled to carry out the works or do the thing and any person whose consent would be required shall grant, or join in granting, the holder of the licence such rights in relation to the land as will enable the holder of the licence to comply with any requirements imposed on him under that subsection.

(9B) Subsections (2) to (8) of section 36A above shall, with the necessary modifications, apply where the authority proposes to impose a requirement under subsection (9) above which may require the holder of a licence to carry out any such works or do any such thing as is mentioned in subsection (9A) above as they apply where the authority proposes to issue a licence subject to any such condition as is mentioned in subsection (1) of that section, but as if—

- (a) the reference in subsection (3) of that section to section 35(4) above were a reference to subsection (9A) above; and
- (b) any reference in those subsections—

- (i) to the condition, or the condition in question, were a reference to the requirement; and
- (ii) to issuing a licence were a reference to serving a notice, under subsection (12) below, effecting the requirement.

(9C) The authority may postpone the service of any notice or the consideration of any representations required under section 36A above, as applied by subsection (9B) above, so far as the authority considers that by reason of an emergency it is appropriate to do so.]²

(10) A person who, without reasonable excuse, fails to comply with any requirement imposed under subsection (9) above otherwise than in relation to special waste shall be liable—

- (a) on summary conviction, to a fine of an amount not exceeding the statutory maximum; and
- (b) on conviction on indictment, to imprisonment for a term not exceeding two years or a fine or both.

(11) A person who, without reasonable excuse, fails to comply with any requirement imposed under subsection (9) above in relation to special waste shall be liable—

- (a) on summary conviction, to imprisonment for a term not exceeding six months or a fine not exceeding the statutory maximum or both; and
- (b) on conviction on indictment, to imprisonment for a term not exceeding five years or a fine or both.

(12) Any revocation or suspension of a licence or requirement imposed during the suspension of a licence under this section shall be effected by notice served on the holder of the licence and the notice shall state the time at which the revocation or suspension or the requirement is to take effect and, in the case of suspension, the period at the end of which, or the event on the occurrence of which, the suspension is to cease.

[(12A) If, in the case of a partial revocation referred to in subsection (3A), the authority is of the opinion that it is necessary to modify the conditions of the licence to take account of the revocation, it shall specify the necessary modifications in the notice served under subsection (12) and the modifications specified in the notice shall take effect on the date specified in the notice.]¹

[(13) If a waste regulation authority is of the opinion that proceedings for an offence under subsection (10) or (11) above would afford an ineffectual remedy against a person who has failed to comply with any requirement imposed under subsection (9) above, the authority may take proceedings in the High Court or, in Scotland, in any court of competent jurisdiction for the purpose of securing compliance with the requirement.]³

39.— Surrender of licences.

(1) A licence may be surrendered by its holder to the authority which granted it but, in the case of a site licence, only if the authority accepts the surrender.

(2) The following provisions apply to the surrender and acceptance of the surrender of a site licence.

[(2A) A surrender of a site licence may extend to the whole of the land to which the licence extends or to any part of it.]¹

(3) The holder of a site licence who desires to surrender it shall make an application for that purpose to the authority [on a form provided by the authority for the purpose, giving such information and accompanied by such evidence as the authority reasonably requires and accompanied by the charge prescribed for the purpose by a charging scheme under section 41 of the Environment Act 1995.]²

(4) An authority which receives an application for the surrender of a site licence—

(a) shall inspect the land to which the [application]¹ relates, and

(b) may require the holder of the licence to furnish to it further information or further evidence.

(5) The authority shall determine whether it is likely or unlikely that the condition of the land, so far as that condition is the result of the use of the land for the treatment, keeping or disposal of waste (whether or not in pursuance of the licence), will cause pollution of the environment or harm to human health.

(6) If the authority is satisfied that the condition of the land is unlikely to cause the pollution or harm mentioned in subsection (5) above, the authority shall, subject to subsection (7) below, accept the surrender of the licence; but otherwise the authority shall refuse to accept it.

(7) Where the authority proposes to accept the surrender of a site licence, the authority must, before it does so,—

(a) refer the proposal to [the appropriate planning authority]³ ; and

(b) consider any representations about the proposal which [the appropriate planning authority]³ makes to it during the allowed period;

[...]⁴

(8) [...]⁵

(9) Where the surrender of a licence is accepted under this section the authority shall issue to the applicant, with the notice of its determination, a certificate (a “certificate of completion”) stating that it is satisfied as mentioned in subsection (6) above and, on the issue of that certificate, the licence shall cease to have effect [or, in the case of a partial surrender referred to in subsection (2A), the licence shall cease to have effect in relation to the land to which the surrender extends]¹

[(9A) If, in the case of a partial surrender referred to in subsection (2A), the authority is of the opinion that it is necessary to modify the conditions of the licence to take account of the surrender, it shall specify the necessary modifications in the notice of its determination issued under subsection (9) and the modifications specified in the notice shall take effect on the date specified in the notice.]¹

(10) If within the period of three months beginning with the date on which an authority receives an application to surrender a licence, or within such longer period as the authority and the applicant may at any time agree in writing, the authority has neither issued a certificate of completion nor

given notice to the applicant that the authority has rejected the application, the authority shall be deemed to have rejected the application.

(11) Section 36(10) above applies for the interpretation of the “allowed period” in [subsection (7)]⁶ above.

[(12) In this section—

“the appropriate planning authority” means —

- (a) where the relevant land is situated in the area of a London borough council, that London borough council;
- (b) where the relevant land is situated in the City of London, the Common Council of the City of London;
- (c) where the relevant land is situated in a non-metropolitan county in England, the council of that county;
- (d) where the relevant land is situated in a National Park or the Broads, the National Park authority for that National Park or, as the case may be, the Broads Authority;
- (e) where the relevant land is situated elsewhere in England or Wales, the council of the district or, in Wales, the county or county borough, in which the land is situated;
- (f) where the relevant land is situated in Scotland, the council constituted under section 2 of the Local Government etc. (Scotland) Act 1994 for the area in which the land is situated;

“the Broads” has the same meaning as in the Norfolk and Suffolk Broads Act 1988;

“National Park authority”, [...]⁸ means a National Park authority established under section 63 of the Environment Act 1995 which has become the local planning authority for the National Park in question;

“the relevant land”, in the case of any site licence, means the land to which the licence relates.

40.— Transfer of licences.

(1) A licence may be transferred to another person in accordance with subsections (2) to (6) below and may be so transferred whether or not the licence is partly revoked or suspended under any provision of this Part.

[(1A) In the case of a site licence, a transfer under subsection (1) may extend to the whole of the land to which the licence extends or to any part of it, and in this Part “transfer” and cognate expressions used in relation to a site licence include such a partial transfer.]¹

(2) Where the holder of a licence desires that the licence be transferred to another person (“the proposed transferee”) the licence holder and the proposed transferee shall jointly make an application to the waste regulation authority which granted the licence for a transfer of it.

(3) An application under subsection (2) above for the transfer of a licence shall be made [on a form provided by the authority for the purpose, accompanied by such information as the authority may reasonably require, the charge prescribed for the purpose by a charging scheme under section 41 of the Environment Act 1995]² and the licence.

(4) If, on such an application, the authority is satisfied that the proposed transferee is a fit and proper person the authority shall effect a transfer of the licence to the proposed transferee.

(5) [Subject to subsections (5A) to (5C), the]¹ authority shall effect a transfer of a licence under the foregoing provisions of this section by causing the licence to be endorsed with the name and other particulars of the proposed transferee as the holder of the licence from such date specified in the endorsement as may be agreed with the applicants.

[(5A) The authority shall effect a partial transfer of a licence by—

- (a) issuing a new licence to the transferee as respects the land to which the transfer relates; and
- (b) returning the original licence to the holder endorsed to record that there has been a transfer, the particulars of the land transferred and the land to which the original licence now relates.

(5B) In the case of a partial transfer, the conditions included in the new licence and original licence after the transfer shall be the same as the conditions included in the original licence immediately before the transfer in so far as they are relevant to the sites covered by the new licence and the original licence respectively, but subject to such modifications as, in the opinion of the authority, are necessary to take account of the transfer.

(5C) A partial transfer shall take effect from such date as may be agreed with the applicants and specified in the endorsement and new licence.]¹

(6) If within the period of two months beginning with the date on which the authority receives an application for the transfer of a licence, or within such longer period as the authority and the applicants may at any time agree in writing, the authority has neither effected a transfer of the licence nor given notice to the applicants that the authority has rejected the application, the authority shall be deemed to have rejected the application.

42.— Supervision of licensed activities.

(1) While a licence is in force it shall be the duty of the waste regulation authority which granted the licence to take the steps needed—

- (a) for the purpose of ensuring that the activities authorised by the licence do not cause pollution of the environment or harm to human health or become seriously detrimental to the amenities of the locality affected by the activities; and
- (b) for the purpose of ensuring that the conditions of the licence are complied with.

(2) [...]¹

(3) For the purpose of performing the duty imposed on it by subsection (1) above, any officer of the authority authorised in writing for the purpose by the authority may, if it appears to him that by reason of an emergency it is necessary to do so, carry out work on the land or in relation to plant or equipment on the land to which the licence relates or, as the case may be, in relation to the mobile plant to which the licence relates.

(4) Where a waste regulation authority incurs any expenditure by virtue of subsection (3) above, the authority may recover the amount of the expenditure from [the holder, or (as the case may be) the former holder, of the licence]², except where the holder or former holder of the licence shows that there was no emergency requiring any work or except such of the expenditure as he shows was unnecessary.

(5) Where it appears to a waste regulation authority that a condition of a licence granted by it is not being complied with [or is likely not to be complied with]³, then, without prejudice to any proceedings under section 33(6) above, the authority may—

[(a) serve on the holder of the licence a notice—

- (i) stating that the authority is of the opinion that a condition of the licence is not being complied with or, as the case may be, is likely not to be complied with;
- (ii) specifying the matters which constitute the non-compliance or, as the case may be, which make the anticipated non-compliance likely;
- (iii) specifying the steps which must be taken to remedy the non-compliance or, as the case may be, to prevent the anticipated non-compliance from occurring; and
- (iv) specifying the period within which those steps must be taken; and

] ⁴

(b) if in the opinion of the authority the licence holder [has not taken the steps specified in the notice within the period so specified,]⁵ exercise any of the powers specified in subsection (6) below.

(6) The powers which become exercisable in the event mentioned in subsection (5)(b) above are the following—

- (a) to revoke the licence so far as it authorises the carrying on of the activities specified in the licence or such of them as the authority specifies in revoking the licence;
- (b) to revoke the licence entirely; and
- (c) to suspend the licence so far as it authorises the carrying on of the activities specified in the licence or, as the case may be, the activities specified by the authority in suspending the licence.

[(6ZA) In the case of a site licence, a revocation under subsection (6)(a) or a suspension under subsection (6)(c) may relate to the whole of the land to which the licence relates or to any part of it.]⁶

[(6A) If a waste regulation authority is of the opinion that revocation or suspension of the licence, whether entirely or to any extent, under subsection (6) above would afford an ineffectual remedy against a person who has failed to comply with any requirement imposed under subsection (5)(a) above, the authority may take proceedings in the High Court or, in Scotland, in any court of competent jurisdiction for the purpose of securing compliance with the requirement.]⁷

(7) Where a licence is revoked or suspended under subsection (6) above, [[subsections (3A), (5), (12) and (12A)]⁶ or, as the case may be, subsections (8) to (12) of section 38]⁸ above shall apply with the necessary modifications as they respectively apply to revocations or suspensions of licences under that section; [...]]⁹ .

(8) The Secretary of State may, if he thinks fit in relation to a licence granted by a waste regulation authority, give to the authority directions as to whether and in what manner the authority should exercise its powers under this section; and it shall be the duty of the authority to give effect to the directions.

43.— Appeals to Secretary of State from decisions with respect to licences.

- (1) Where, except in pursuance of a direction given by the Secretary of State,—
- (a) an application for a licence or a modification of the conditions of a licence is rejected;
 - (b) a licence is granted subject to conditions;
 - (c) the conditions of a licence are modified;
 - (d) a licence is suspended;
 - (e) a licence is revoked under section 38 or 42 above;
 - (f) an application to surrender a licence is rejected; or
 - (g) an application for the transfer of a licence is rejected;

then, except in the case of an application for a transfer, the applicant for the licence or, as the case may be, the holder or former holder of it may appeal from the decision to the Secretary of State and, in the case of an application for a transfer, the proposed transferee may do so.

(2) Where an appeal is made to the Secretary of State—

(a)-(b) [...] ¹

(c) if a party to the appeal so requests, or the Secretary of State so decides, the appeal shall be or continue in the form of a hearing (which may, if the person hearing the appeal so decides, be held or held to any extent in private).

[(2A) This section is subject to section 114 of the Environment Act 1995 (delegation or reference of appeals etc).] ²

(3) Where, on such an appeal, the Secretary of State or other person determining the appeal determines that the decision of the authority shall be altered it shall be the duty of the authority to give effect to the determination.

(4) While an appeal is pending in a case falling within subsection (1)(c) or (e) above, the decision in question shall, subject to subsection (6) below, be ineffective; and if the appeal is dismissed or withdrawn the decision shall become effective from the end of the day on which the appeal is dismissed or withdrawn.

(5) Where an appeal is made in a case falling within subsection (1)(d) above, the bringing of the appeal shall have no effect on the decision in question.

(6) Subsection (4) above shall not apply to a decision modifying the conditions of a licence under section 37 above or revoking a licence under section 38 or 42 above in the case of which the notice effecting the modification or revocation includes a statement that in the opinion of the authority it is necessary for the purpose of preventing or, where that is not practicable, minimising pollution of the environment or harm to human health that that subsection should not apply.

(7) Where the decision under appeal is one falling within subsection (6) above or is a decision to suspend a licence, if, on the application of the holder or former holder of the licence, the Secretary of State or other person determining the appeal determines that the authority acted unreasonably in excluding the application of subsection (4) above or, as the case may be, in suspending the licence, then—

(a) if the appeal is still pending at the end of the day on which the determination is made, subsection (4) above shall apply to the decision from the end of that day; and

(b) the holder or former holder of the licence shall be entitled to recover compensation from the authority in respect of any loss suffered by him in consequence of the exclusion of the application of that subsection or the suspension of the licence;

and any dispute as to a person's entitlement to such compensation or as to the amount of it shall be determined by arbitration or in Scotland by a single arbiter appointed, in default of agreement between the parties concerned, by the Secretary of State on the application of any of the parties.

(8) Provision may be made by the Secretary of State by regulations with respect to appeals under this section and in particular—

(a) as to the period within which and the manner in which appeals are to be brought; and

(b) as to the manner in which appeals are to be considered.

[45C Separate collection of dry recyclable waste and food waste: Scotland

(1) This section applies to a waste collection authority whose area is in Scotland (an “authority”) when the authority is making an arrangement in accordance with section 45(1)(a).

(2) An authority must, from 1st January 2014, arrange for there to be provided to the occupier of every domestic property in its area such receptacles as will enable the separate collection of dry recyclable waste from the property.

(3) An authority need not arrange for a receptacle to be provided under subsection (2) if—
(a) the property is in a rural area, and the authority considers that the separate collection of dry recyclable waste from the property would not be environmentally or economically practicable; or
(b) the authority considers that dry recyclable waste if not presented in a receptacle will be deposited at a bring site.

[(4) An authority need not comply with subsection (2) to the extent that—

- (a) it considers that—
(i) such non-compliance will not affect the potential of the waste to undergo preparing for re-use, recycling or other recovery operations, and
(ii) the resulting output will be of comparable quantity and quality to that achieved if subsection (2) were complied with, and
(b) it is satisfied that dry recyclable waste will not be mixed with other waste that cannot be recycled.

] ²

(5) An authority must, from 1st January 2016, arrange for there to be provided to the occupier of every domestic property in its area (apart from a property in a rural area)—

- (a) a receptacle which enables the separate collection of food waste from the property; or

(b) where an authority is satisfied that the amount of food waste that will be collected is not significantly less than would be collected in a receptacle provided under paragraph (a), a receptacle which enables the occupier to present food waste and other biodegradable waste for collection.

(6) An authority must, from 1st January 2014, take such steps as the authority considers reasonable to—

- (a) promote separate collection (including the making of arrangements for the provision of a food waste receptacle); and
- (b) promote recycling in any other manner.

(7) In this section—

“bring site” means any site (supervised or otherwise) where—

- (a) an occupier of domestic property can deposit dry recyclable waste produced on that property in receptacles for one or more dry waste streams; and
- (b) waste so deposited is collected and transported separately by an authorised person (for which see section 34(3));

“receptacle” has the same meaning as in section 46(10); and

“rural area” has the same meaning as in section 34(4B).

(2) A waste disposal authority in England which is not also a waste collection authority may pay to a waste collection authority within its area—

- (a) which performs its duty under section 48(1) above by delivering waste in a state of separation, but

(3) The Secretary of State may by regulations make provision about how amounts to be paid under subsection (1) above are to be determined.

(4) Regulations under subsection (3) above may include provision for amounts to be less than they would otherwise be (or to be nil) if conditions specified in the regulations are not satisfied.

(5) Any question arising under subsection (1) above shall, in default of agreement between the paying and receiving authorities, be determined by arbitration.

(6) A waste collection authority in England which is not also a waste disposal authority shall supply the waste disposal authority for its area with such information as the disposal authority may reasonably require—

- (b) for the purpose of estimating any amounts that would fall to be determined under this section were the collection authority to be subject to particular separation requirements.

(7) In this section “separation requirements”, in relation to a waste collection authority, means requirements about separation included in directions given to it under section 51(4)(a) above.

(1) If any controlled waste [or extractive waste]² is deposited in or on any land in the area of a waste regulation authority or waste collection authority in contravention of section 33(1) above [or regulation 12 of [the Environmental Permitting Regulations]⁴]³, the authority may, by notice served on him, require the occupier to do either or both of the following, that is—

- (a) to remove the waste from the land within a specified period not less than a period of twenty-one days beginning with the service of the notice;
- (b) to take within such a period specified steps with a view to eliminating or reducing the consequences of the deposit of the waste.

(2) A person on whom any requirements are imposed under subsection (1) above may, within the period of twenty-one days mentioned in that subsection, appeal against the requirement to a magistrates' court or, in Scotland, to the sheriff by way of summary application.

(3) On any appeal under subsection (2) above the court shall quash the requirement if it is satisfied that—

- (a) the appellant neither deposited nor knowingly caused nor knowingly permitted the deposit of the waste; or
- (b) there is a material defect in the notice;

and in any other case shall either modify the requirement or dismiss the appeal.

(4) Where a person appeals against any requirement imposed under subsection (1) above, the requirement shall be of no effect pending the determination of the appeal; and where the court modifies the requirement or dismisses the appeal it may extend the period specified in the notice.

(5) If a person on whom a requirement imposed under subsection (1) above fails, without reasonable excuse, to comply with the requirement he shall be liable, on summary conviction, to a fine not exceeding level 5 on the standard scale and to a further fine of an amount equal to [one-tenth of the greater of £5,000 or level 4 on the standard scale]⁵ for each day on which the failure continues after conviction of the offence and before the authority has begun to exercise its powers under subsection (6) below.

(6) Where a person on whom a requirement has been imposed under subsection (1) above by an authority fails to comply with the requirement the authority may do what that person was required to do and may recover from him any expenses reasonably incurred by the authority in doing it.

(7) If it appears to a waste regulation authority or waste collection authority that waste has been deposited in or on any land in contravention of section 33(1) above [or regulation 12 of [the Environmental Permitting Regulations]⁴ ,]³ and that—

- (a) in order to remove or prevent pollution of land, water or air or harm to human health it is necessary that the waste be forthwith removed or other steps taken to eliminate or reduce the consequences of the deposit or both; or

(b) there is no occupier of the land [or the occupier cannot be found without the authority incurring unreasonable expense]⁶ ; or

(c) the occupier neither made nor knowingly permitted the deposit of the waste;
the authority may remove the waste from the land or take other steps to eliminate or reduce the consequences of the deposit or, as the case may require, to remove the waste and take those steps.

(8) Where an authority exercises any of the powers conferred on it by subsection (7) above it shall be entitled to recover the cost incurred by it in removing the waste or taking the steps or both and in disposing of the waste—

(a) in a case falling within subsection (7)(a) above, from the occupier of the land unless he proves that he neither made nor knowingly caused nor knowingly permitted the deposit of the waste;

(b) in any case, from any person who deposited or knowingly caused or knowingly permitted the deposit of any of the waste;

except such of the cost as the occupier or that person shows was incurred unnecessarily.

(8A) An authority may not recover costs under subsection (8) above if [a compensation order (within the meaning given by section 133 of the Sentencing Code) has been made]⁷ in favour of the authority in respect of any part of those costs.

(8B) Subsection (8A) does not apply if the order is set aside on appeal.

(9) Any waste removed by an authority under subsection (7) above shall belong to that authority and may be dealt with accordingly.

66.— Exclusion from registers of certain confidential information.

(1) No information relating to the affairs of any individual or business shall be included in a register maintained under section 64 above (a “register”), without the consent of that individual or the person for the time being carrying on that business, if and so long as the information—

- (a) is, in relation to him, commercially confidential; and
- (b) is not required to be included in the register in pursuance of directions under subsection (7) below;

but information is not commercially confidential for the purposes of this section unless it is determined under this section to be so by the authority maintaining the register or, on appeal, by the Secretary of State.

then, if the person furnishing it applies to the authority to have the information excluded from the register on the ground that it is commercially confidential (as regards himself or another person), the authority shall determine whether the information is or is not commercially confidential.

(3) A determination under subsection (2) above must be made within the period of fourteen days beginning with the date of the application and if the authority fails to make a determination within that period it shall be treated as having determined that the information is commercially confidential.

(4) Where it appears to an authority maintaining a register that any information (other than information furnished in circumstances within subsection (2) above) which has been obtained by the authority under or by virtue of any provision of this Part might be commercially confidential, the authority shall—

(7) The Secretary of State may give to the authorities maintaining registers directions as to specified information, or descriptions of information, which the public interest requires to be included in the registers notwithstanding that the information may be commercially confidential.

(8) Information excluded from a register shall be treated as ceasing to be commercially confidential for the purposes of this section at the expiry of the period of four years beginning with the date of the determination by virtue of which it was excluded; but the person who furnished it may apply to the authority for the information to remain excluded from the register on the ground that it is still commercially confidential and the authority shall determine whether or not that is the case.

(9) Subsections (5) and (6) above shall apply in relation to a determination under subsection (8) above as they apply in relation to a determination under subsection (2) or (4) above.

77.— Transition from Control of Pollution Act 1974 to this Part.

(1) This section has effect for the purposes of the transition from the provisions of Part I of the Control of Pollution Act 1974 (“the 1974 Act”) to the corresponding provisions of this Part of this Act and in this section—

“existing disposal authority” has the same meaning as in section 32 above;

“existing disposal licence” means a disposal licence under section 5 of the 1974 Act subsisting on the day appointed under section 164(3) below for the repeal of sections 3 to 10 of the 1974 Act and “relevant appointed day for licences” shall be construed accordingly; “existing disposal plan” means a plan under section 2 of the 1974 Act subsisting on the day appointed under section 164(3) below for the repeal of that section and “relevant appointed day for plans” shall be construed accordingly;

“relevant part of its undertaking”, in relation to an existing disposal authority, has the same meaning as in section 32 above; and

“the vesting date”, in relation to an existing disposal authority and its waste disposal contractors, means the vesting date under Schedule 2 to this Act.

(2) [Subject to section 4 of the Pollution Prevention and Control Act 1999, an]¹ existing disposal licence shall, on and after the relevant appointed day for licences, be treated as a site licence until it expires or otherwise ceases to have effect; and accordingly it shall be variable and subject to revocation or suspension under this Part of this Act and may not be surrendered or transferred except under this Part of this Act.

(3) [...] ²

(4) Any existing disposal plan of an existing disposal authority shall, on and after the relevant appointed day for plans, be treated as the plan of that authority under section 50 above and that section shall accordingly have effect as if references in it to “the plan” included the existing disposal plan of that authority.

(5) Subsection (4) above applies to Scotland and, for the purposes of that application, “existing disposal authority” means any authority constituted as a disposal authority for any area before the day appointed for this section to come into force and “that authority” means the waste disposal authority for that area under section 30(2) above.

(6) Subject to subsection (7) below, as respects any existing disposal authority—

(a) the restriction imposed by section 51(1) of this Act on the means whereby the authority arranges for the disposal of controlled waste shall not apply to the authority—

(i) in the case of an authority which transfers the relevant part of its undertaking in accordance with a scheme under Schedule 2 to this Act, until the date which is the vesting date for that authority; and

(ii) in any other case, until the date on which the authority transfers, or ceases itself to carry on, the relevant part of its undertaking or ceases to provide places at which and plant and equipment by means of which controlled waste can be disposed of or deposited for the purposes of disposal; and

(b) on and after that date, section 14(4) of the 1974 Act shall not authorise the authority to arrange for the disposal of controlled waste except by means of arrangements made (in accordance with Part II of Schedule 2 to this Act) with waste disposal contractors.

(7) The Secretary of State may, as respects any existing disposal authority, direct that the restriction imposed by section 51(1) above shall not apply in the case of that authority until such date as he

specifies in the direction and where he does so paragraph (a) of subsection (6) above shall not apply and paragraph (b) shall be read as referring to the date so specified.

(8) In section 14(4) of the 1974 Act, after the words “this subsection”, there shall be inserted the words “but subject to subsection (6) of section 77 of the Environmental Protection Act 1990 as respects any time after the date applicable to the authority under paragraph (a) or (b) of that subsection”.

(9) As respects any existing disposal authority, until the date which is, under subsection (6)(a) above, the date until which the restriction imposed by section 51(1) of this Act is disapplied,—

(a) the powers conferred on a waste disposal authority by section 55(2)(a) and (b) of this Act as respects the recycling of waste and the use of waste to produce heat or electricity shall be treated as powers which the authority may exercise itself; and

(b) the power conferred on a waste disposal authority by section 48(4) of this Act to object to a waste collection authority having waste recycled where the disposal authority has made arrangements with a waste disposal contractor for the contractor to recycle the waste shall be available to the waste disposal authority where it itself has the waste recycled.

- (1) In any case where—
- (a) any land has been designated as a special site by virtue of section 78C(7) or 78D(6) above, or
 - (b) a local authority has identified any contaminated land (other than a special site) in its area,
- the enforcing authority shall, in accordance with such procedure as may be prescribed and subject to the following provisions of this Part, serve on each person who is an appropriate person a notice (in this Part referred to as a “remediation notice”) specifying what that person is to do by way of remediation and the periods within which he is required to do each of the things so specified.
- (2) Different remediation notices requiring the doing of different things by way of remediation may be served on different persons in consequence of the presence of different substances in, on or under any land or the water environment.
- (3) Where two or more persons are appropriate persons in relation to any particular thing which is to be done by way of remediation, the remediation notice served on each of them shall state the

proportion, determined under section 78F(7) below, of the cost of doing that thing which each of them respectively is liable to bear.

(4) The only things by way of remediation which the enforcing authority may do, or require to be done, under or by virtue of this Part are things which it considers reasonable, having regard to—

- the enforcing authority shall have regard to any guidance issued for the purpose by the Secretary of State.

(6) Regulations may make provision for or in connection with—

(6) Where two or more persons would, apart from this subsection, be appropriate persons in relation to any particular thing which is to be done by way of remediation, the enforcing authority shall determine in accordance with guidance issued for the purpose by the Secretary of State whether any, and if so which, of them is to be treated as not being an appropriate person in relation to that thing.

(7) Where two or more persons are appropriate persons in relation to any particular thing which is to be done by way of remediation, they shall be liable to bear the cost of doing that thing in proportions determined by the enforcing authority in accordance with guidance issued for the purpose by the Secretary of State.

(10) A thing which is to be done by way of remediation may be regarded for the purposes of this Part as referable to the presence of any substance notwithstanding that the thing in question would not have to be done—

- (a) in consequence only of the presence of that substance in any quantity; or
- (b) in consequence only of the quantity of that substance which any particular person caused or knowingly permitted to be present.

[78J.— Restrictions on liability relating to the pollution of controlled waters.

(1) This section applies where any land is contaminated land by virtue of paragraph (b) of subsection (2) of section 78A above (whether or not the land is also contaminated land by virtue of paragraph (a) of that subsection).

(2) Where this section applies, no remediation notice given in consequence of the land in question being contaminated land shall require a person who is an appropriate person by virtue of section 78F(4) or (5) above to do anything by way of remediation to that or any other land, or any waters, which he could not have been required to do by such a notice had paragraph (b) of section 78A(2) above (and all other references to pollution of controlled waters) been omitted from this Part.

(3) If, in a case where this section applies, a person permits, has permitted, or might permit, water from an abandoned mine or part of a mine—

(a) to enter any controlled waters, or

(b) to reach a place from which it is or, as the case may be, was likely, in the opinion of the enforcing authority, to enter such waters,

no remediation notice shall require him in consequence to do anything by way of remediation (whether to the contaminated land in question or to any other land or waters) which he could not have been required to do by such a notice had paragraph (b) of section 78A(2) above (and all other references to pollution of controlled waters) been omitted from this Part.

(4) Subsection (3) above shall not apply to the owner or former operator of any mine or part of a mine if the mine or part in question became abandoned after 31st December 1999.

(5) In determining for the purposes of subsection (4) above whether a mine or part of a mine became abandoned before, on or after 31st December 1999 in a case where the mine or part has become abandoned on two or more occasions, of which—

- (a) at least one falls on or before that date, and
- (b) at least one falls after that date,

the mine or part shall be regarded as becoming abandoned after that date (but without prejudice to the operation of subsection (3) above in relation to that mine or part at, or in relation to, any time before the first of those occasions which falls after that date).

(6) Where, immediately before a part of a mine becomes abandoned, that part is the only part of the mine not falling to be regarded as abandoned for the time being, the abandonment of that part shall not be regarded for the purposes of subsection (4) or (5) above as constituting the abandonment of the mine, but only of that part of it.

(7) Nothing in subsection (2) or (3) above prevents the enforcing authority from doing anything by way of remediation under section 78N below which it could have done apart from that subsection, but the authority shall not be entitled under section 78P below to recover from any person any part of the cost incurred by the authority in doing by way of remediation anything which it is precluded by subsection (2) or (3) above from requiring that person to do.

(8) In this section “mine” has the same meaning as in the Mines and Quarries Act 1954.

[78J.— Restrictions on liability relating to the pollution of controlled waters.

(1) This section applies where any land is contaminated land by virtue of paragraph (b) of subsection (2) of section 78A above (whether or not the land is also contaminated land by virtue of paragraph (a) of that subsection).

(2) Where this section applies, no remediation notice given in consequence of the land in question being contaminated land shall require a person who is an appropriate person by virtue of section 78F(4) or (5) above to do anything by way of remediation to that or any other land, or the water environment, which he could not have been required to do by such a notice had paragraph (b) of section 78A(2) above (and all other references to pollution of [the water environment]²) been omitted from this Part.

(3) If, in a case where this section applies, a person permits, has permitted, or might permit, water from an abandoned mine or part of a mine—

- (a) to enter the water environment, or

(b) to reach a place from which it is or, as the case may be, was likely, in the opinion of the enforcing authority, to enter the water environment, no remediation notice shall require him in consequence to do anything by way of remediation (whether to the contaminated land in question or to any other land or the water environment) which he could not have been required to do by such a notice had paragraph (b) of section 78A(2) above (and all other references to pollution of [the water environment]²) been omitted from this Part.

(4) Subsection (3) above shall not apply to the owner or former operator of any mine or part of a mine if the mine or part in question became abandoned after 31st December 1999.

(5) In determining for the purposes of subsection (4) above whether a mine or part of a mine became abandoned before, on or after 31st December 1999 in a case where the mine or part has become abandoned on two or more occasions, of which—

(a) at least one falls on or before that date, and

(b) at least one falls after that date,

the mine or part shall be regarded as becoming abandoned after that date (but without prejudice to the operation of subsection (3) above in relation to that mine or part at, or in relation to, any time before the first of those occasions which falls after that date).

(6) Where, immediately before a part of a mine becomes abandoned, that part is the only part of the mine not falling to be regarded as abandoned for the time being, the abandonment of that part shall not be regarded for the purposes of subsection (4) or (5) above as constituting the abandonment of the mine, but only of that part of it.

(7) Nothing in subsection (2) or (3) above prevents the enforcing authority from doing anything by way of remediation under section 78N below which it could have done apart from that subsection, but the authority shall not be entitled under section 78P below to recover from any person any part of the cost incurred by the authority in doing by way of remediation anything which it is precluded by subsection (2) or (3) above from requiring that person to do.

(8) In this section “mine” has the same meaning as in the Mines and Quarries Act 1954.

- (b) who has not caused or knowingly permitted the substances in question to be in, on or under that land,

to do anything by way of remediation to any land or waters (other than land or waters of which he is the owner or occupier) in consequence of land A appearing to be in such a condition, by reason of the presence of those substances in, on or under it, that significant harm [, or significant pollution of controlled waters, is being caused, or there is a significant possibility of such harm or pollution being caused]² .

- (5) Where land, or any of the land, to which a non-contamination notice relates is subsequently identified as contaminated land, or is subsequently designated as a special site by virtue of section 78C(7) or 78D(6), subsection (3)(b) above does not prevent a remediation notice being served in respect of the land.
- (6) Where a local authority gives a non-contamination notice, it must keep (in such form as it thinks fit) a record of—
- (a) details of the land to which the notice relates;
 - (b) its reasons for giving the notice; and
 - (c) the date of—
 - (i) the notice mentioned in subsection (1) above;
 - (ii) service of the non-contamination notice.

- (a) is, in relation to him, commercially confidential; and
- (b) is not required to be included in the register in pursuance of directions under subsection (7) below;

but information is not commercially confidential for the purposes of this section unless it is determined under this section to be so by the enforcing authority or, on appeal, by the Secretary of State.

(5) If a local authority is of opinion that proceedings for an offence under section 80(4) above would afford an inadequate remedy in the case of any statutory nuisance, they may, subject to subsection

(6) below, take proceedings in the High Court or, in Scotland, in any court of competent jurisdiction, for the purpose of securing the abatement, prohibition or restriction of the nuisance, and the proceedings shall be maintainable notwithstanding the local authority have suffered no damage from the nuisance.

82.— Summary proceedings by persons aggrieved by statutory nuisances.

(1) A magistrates' court may act under this section on a complaint [or, in Scotland, the sheriff may act under this section on a summary application,]¹ made by any person on the ground that he is aggrieved by the existence of a statutory nuisance.

(2) If the magistrates' court [or, in Scotland, the sheriff]² is satisfied that the alleged nuisance exists, or that although abated it is likely to recur on the same premises [or, in the case of a nuisance within section 79(1)(ga) above, in the same street]³ [or, in Scotland, road]⁴, the court [or the sheriff]⁵ shall make an order for either or both of the following purposes—

(a) requiring the defendant [or, in Scotland, defender]⁶ to abate the nuisance, within a time specified in the order, and to execute any works necessary for that purpose;

(b) prohibiting a recurrence of the nuisance, and requiring the defendant [or defender]⁷, within a time specified in the order, to execute any works necessary to prevent the recurrence;
and [, in England and Wales,]⁸ may also impose on the defendant a fine not exceeding level 5 on the standard scale.

(3) If the magistrates' court [or the sheriff]⁹ is satisfied that the alleged nuisance exists and is such as, in the opinion of the court [or of the sheriff]⁹, to render premises unfit for human habitation, an order under subsection (2) above may prohibit the use of the premises for human habitation until the premises are, to the satisfaction of the court [or of the sheriff]⁹, rendered fit for that purpose.

(4) Proceedings for an order under subsection (2) above shall be brought—

(a) except in a case falling within [paragraph (b), (c) or (d) below]¹⁰, against the person responsible for the nuisance;

(b) where the nuisance arises from any defect of a structural character, against the owner of the premises;

(c) where the person responsible for the nuisance cannot be found, against the owner or occupier of the premises.

[(d) in the case of a statutory nuisance within section 79(1)(ga) above caused by noise emitted from or caused by an unattended vehicle or unattended machinery or equipment, against the person responsible for the vehicle, machinery or equipment.]¹¹

(5) [Subject to subsection (5A) below, where]¹² more than one person is responsible for a statutory nuisance, subsections (1) to (4) above shall apply to each of those persons whether or not what any one of them is responsible for would by itself amount to a nuisance.

[(5A) In relation to a statutory nuisance within section 79(1)(ga) above for which more than one person is responsible (whether or not what any one of those persons is responsible for would by itself amount to a nuisance), subsection (4)(a) above shall apply with the substitution of “each person responsible for the nuisance who can be found” for “the person responsible for the nuisance”.

(5B) In relation to a statutory nuisance within section 79(1)(ga) above caused by noise emitted from or caused by an unattended vehicle or unattended machinery or equipment for which more than one person is responsible, subsection (4)(d) above shall apply with the substitution of “any person” for “the person”.]¹³

(6) Before instituting proceedings for an order under subsection (2) above against any person, the person aggrieved by the nuisance shall give to that person such notice in writing of his intention to bring the proceedings as is applicable to proceedings in respect of a nuisance of that description and the notice shall specify the matter complained of.

(7) The notice of the bringing of proceedings in respect of a statutory nuisance required by subsection (6) above which is applicable is—

(a) in the case of a nuisance falling within [paragraph (g) or (ga) of section 79(1)]¹⁴ above, not less than three days' notice; and

(b) in the case of a nuisance of any other description, not less than twenty-one days' notice; but the Secretary of State may, by order, provide that this subsection shall have effect as if such period as is specified in the order were the minimum period of notice applicable to any description of statutory nuisance specified in the order.

(8) A person who, without reasonable excuse, contravenes any requirement or prohibition imposed by an order under subsection (2) above shall be guilty of an offence and liable on summary conviction to a fine not exceeding level 5 on the standard scale together with a further fine of an amount equal to one-tenth of that level for each day on which the offence continues after the conviction.

(9) Subject to subsection (10) below, in any proceedings for an offence under subsection (8) above in respect of a statutory nuisance it shall be a defence to prove that the best practicable means were used to prevent, or to counteract the effects of, the nuisance.

(10) The defence under subsection (9) above is not available—

(a) in the case of a nuisance falling within paragraph (a), (d), (e), (f) or (g) of section 79(1) above except where the nuisance arises on industrial, trade or business premises;

[(aa) in the case of a nuisance falling within paragraph (ga) of section 79(1) above except where the noise is emitted from or caused by a vehicle, machinery or equipment being used for industrial, trade or business purposes;]¹⁵

(b) in the case of a nuisance falling within paragraph (b) of section 79(1) above except where the smoke is emitted from a chimney;

(c) in the case of a nuisance falling within paragraph (c) or (h) of section 79(1) above; and

(d) in the case of a nuisance which is such as to render the premises unfit for human habitation.

(11) If a person is convicted of an offence under subsection (8) above, a magistrates' court [or the sheriff]¹⁶ may, after giving the local authority in whose area the nuisance has occurred an opportunity of being heard, direct the authority to do anything which the person convicted was required to do by the order to which the conviction relates.

(12) Where on the hearing of proceedings for an order under subsection (2) above it is proved that the alleged nuisance existed at the date of the making of the complaint [or summary application]¹⁷, then, whether or not at the date of the hearing it still exists or is likely to recur, the court [or the sheriff]¹⁷ shall order the [defendant or defender (or defendants or defenders)]¹⁸ in such proportions as appears fair and reasonable) to pay to the person bringing the proceedings such amount as the court [or the sheriff]¹⁷ considers reasonably sufficient to compensate him for any expenses properly incurred by him in the proceedings.

(13) If it appears to the magistrates' court [or to the sheriff]¹⁹ that neither the person responsible for the nuisance nor the owner or occupier of the premises [or (as the case may be) the person responsible for the vehicle, machinery or equipment]²⁰ can be found the court [or the sheriff]¹⁹ may, after giving the local authority in whose area the nuisance has occurred an opportunity of being heard, direct the authority to do anything which the court [or the sheriff]¹⁹ would have ordered that person to do.

- (b) in the case of a nuisance of any other description, not less than twenty-one days' notice; but the Secretary of State may, by order, provide that this subsection shall have effect as if such period as is specified in the order were the minimum period of notice applicable to any description of statutory nuisance specified in the order.

(8) A person who, without reasonable excuse, contravenes any requirement or prohibition imposed by an order under subsection (2) above shall be guilty of an offence and liable on summary conviction to a fine not exceeding level 5 on the standard scale together with a further fine of an amount equal

to [one-tenth of the greater of £5,000 or level 4 on the standard scale]² for each day on which the offence continues after the conviction.

(9) Subject to subsection (10) below, in any proceedings for an offence under subsection (8) above in respect of a statutory nuisance it shall be a defence to prove that the best practicable means were used to prevent, or to counteract the effects of, the nuisance.

(10) The defence under subsection (9) above is not available—

(a) in the case of a nuisance falling within paragraph (a), (d), (e), (f), (fa) or (g) of section 79(1) above except where the nuisance arises on industrial, trade or business premises;

(aza) in the case of a nuisance falling within paragraph (fb) of section 79(1) above except where—

(i) the artificial light is emitted from industrial, trade or business premises, or

(ii) the artificial light (not being light to which sub-paragraph (i) applies) is emitted by lights used for the purpose only of illuminating an outdoor relevant sports facility;

(aa) in the case of a nuisance falling within paragraph (ga) of section 79(1) above except where the noise is emitted from or caused by a vehicle, machinery or equipment being used for industrial, trade or business purposes;

(b) in the case of a nuisance falling within paragraph (b) of section 79(1) above except where the smoke is emitted from a chimney;

(c) in the case of a nuisance falling within paragraph (c) or (h) of section 79(1) above; and

(d) in the case of a nuisance which is such as to render the premises unfit for human habitation.

(10A) For the purposes of subsection (10)(aza) “relevant sports facility” has the same meaning as it has for the purposes of section 80(8)(aza).

(11) If a person is convicted of an offence under subsection (8) above, a magistrates' court or the sheriff may, after giving the local authority in whose area the nuisance has occurred an opportunity of being heard, direct the authority to do anything which the person convicted was required to do by the order to which the conviction relates.

(12) Where on the hearing of proceedings for an order under subsection (2) above it is proved that the alleged nuisance existed at the date of the making of the complaint or summary application, then, whether or not at the date of the hearing it still exists or is likely to recur, the court or the sheriff shall order the defendant or defender (or defendants or defenders in such proportions as appears fair and reasonable) to pay to the person bringing the proceedings such amount as the court or the sheriff considers reasonably sufficient to compensate him for any expenses properly incurred by him in the proceedings.

(13) If it appears to the magistrates' court or to the sheriff that neither the person responsible for the nuisance nor the owner or occupier of the premises or (as the case may be) the person responsible for the vehicle, machinery or equipment can be found the court or the sheriff may, after giving the local authority in whose area the nuisance has occurred an opportunity of being heard, direct the authority to do anything which the court or the sheriff would have ordered that person to do.

Law In Force

[88A Littering from vehicles: civil penalty regime

(1) The Secretary of State may make regulations under which the keeper of a vehicle may be required to pay a fixed penalty to a litter authority where there is reason to believe that a littering offence in England has been committed in respect of the vehicle.

(2) A littering offence is committed in respect of a vehicle if an offence under section 87(1) occurs as a result of litter being thrown, dropped or otherwise deposited from the vehicle (whether or not by the vehicle's keeper).

(3) Regulations under this section must make provision—

- (a) setting the amount of fixed penalties or specifying how the amount is to be determined;
- (b) about the period within which fixed penalties must be paid;
- (c) for payment within that period of a fixed penalty imposed for a littering offence committed in respect of a vehicle to discharge any liability for conviction for the offence (whether on the part of the keeper or anybody else);
- (d) for a fixed penalty to be payable by the keeper of a vehicle only if a written notice is given to the keeper (“a penalty notice”);
- (e) about the persons authorised to give penalty notices;
- (f) about the procedure to be followed in giving penalty notices;
- (g) about the form and content of penalty notices;
- (h) conferring rights to make representations about, and to bring appeals against, penalty notices.

(4) Provision under subsection (3)(e) may authorise a person to give a penalty notice for a littering offence committed in respect of a vehicle only if—

- (a) the person is under a duty under section 89(1) in respect of the land where the offence is committed (and that person is a “litter authority” in relation to a fixed penalty payable under the regulations), or
- (b) the person is an authorised officer of a litter authority,

and regulations under this section may include provision about the meaning of “authorised officer”.

(5) Regulations under this section may include provision—

- (a) for the enforcement of penalty notices (and such provision may in particular authorise an unpaid fixed penalty to be recovered summarily as a civil debt or as if payable under an order of a court if the court so orders);
- (b) about the application of sums paid under penalty notices (and such provision may in particular authorise sums paid to a litter authority to be applied for the purposes of such functions of the authority as the regulations may specify);
- (c) about the application of the regulations to keepers of vehicles in the public service of the Crown.

(6) Regulations under this section may, in consequence of any provision contained in the regulations, amend—

- (a) this Part, or
- (b) Part 2 of the London Local Authorities Act 2007.

(7) Regulations under this section may—

- (a) make provision corresponding or similar to any provision made by or under section 88;
- (b) make provision subject to exceptions;
- (c) include saving, transitional, transitory, supplementary or consequential provision.

(8) Provision of the kind mentioned in subsection (7)(a) may include provision—

106.— Purpose of Part VI and meaning of “genetically modified organisms” and related expressions.

[(1) This Part has effect for the purpose of ensuring that all appropriate measures are taken to avoid damage to the environment which may arise from the escape or release from human control of genetically modified organisms.]¹

(2) In this Part the term “organism” means any acellular, unicellular or multicellular entity (in any form), other than humans [, human embryos or human admixed embryos]² ; and, unless the context otherwise requires, the term also includes any article or substance consisting of or including biological matter .

(3) For the purpose of subsection (2) above “biological matter” means anything (other than an entity mentioned in that subsection) which consists of or includes—

(a) tissue or cells (including gametes or propagules) or subcellular entities, of any kind, capable of replication or of transferring genetic material, or

(b) genes or other genetic material, in any form, which are so capable,

and it is immaterial, in determining if something is or is not an organism or biological matter, whether it is the product of natural or artificial processes of reproduction and, in the case of biological matter, whether it has ever been part of a whole organism.

[(3A) For the purposes of subsection (2) above—

(a) “human embryo” means an embryo within the meaning given in the provisions of the Human Fertilisation and Embryology Act 1990 (apart from section 4A) by virtue of section 1(1) and (6) of that Act, and

(b) “human admixed embryo” has the same meaning as it has in that Act by virtue of section 4A(6) and (11) of that Act.

] ³

(4) For the purposes of this Part an organism is “genetically modified” if any of the genes or other genetic material in the organism—

[(a) have been artificially modified, or]¹

(b) are inherited or otherwise derived, through any number of replications, from genes or other genetic material (from any source) which were so modified.

[(4A) Genes or other genetic material in an organism are “artificially modified” for the purposes of subsection (4) above if they are altered otherwise than by a process which occurs naturally in mating or natural recombination.

This subsection is subject to subsections (4B) and (4C) below.

(4B) For the purposes of subsection (4) above—

(a) genes or other genetic material shall be taken to be artificially modified if they are altered using such techniques as may be prescribed for the purposes of this paragraph;

(b) genes or other genetic material shall not be regarded as artificially modified by reason only of being altered by the use of such techniques as may be prescribed for the purposes of this paragraph.

(4C) An organism shall be taken not to be a genetically modified organism for the purposes of this Part if it is an organism of a prescribed description.

(4D) In subsections (4B) and (4C) above “prescribed” means prescribed by regulations made by the Secretary of State or, in relation to Wales, the National Assembly for Wales.]¹

(5)-(6) [...] ¹

(7) In this Part, where the context permits, a reference to “reproduction”, in relation to an organism, includes a reference to its replication or its transferring genetic material.

109.— General duties relating to importation, acquisition, keeping, release or marketing of organisms.

(1) A person who—

- (a) is proposing to import or acquire any genetically modified organisms, or
- (b) is keeping any such organisms, or
- (c) is proposing to release or market any such organisms,

shall, subject to subsection (5) below, be subject to the duties specified in subsection (2), (3) or (4) below, as the case may be.

(2) A person who proposes to import or acquire genetically modified organisms—

- (a) shall take all reasonable steps to identify, by reference to the nature of the organisms and the manner in which he intends to keep them (including any precautions to be taken against their escaping or causing damage to the environment), what risks there are of damage to the environment being caused as a result of their importation or acquisition; and
- (b) shall not import or acquire the organisms if it appears that, despite any precautions which can be taken, there is a risk of damage to the environment being caused as a result of their importation or acquisition.

(3) A person who is keeping genetically modified organisms—

- (a) shall take all reasonable steps to keep himself informed of any damage to the environment which may have been caused as a result of his keeping the organisms and to identify what

risks there are of damage to the environment being caused as a result of his continuing to keep them;

(b) shall cease keeping the organisms if, despite any additional precautions which can be taken, it appears, at any time, that there is a risk of damage to the environment being caused as a result of his continuing to keep them; and

(c) shall use the best available techniques not entailing excessive cost for keeping the organisms under his control and for preventing any damage to the environment being caused as a result of his continuing to keep the organisms;

and where a person is required by paragraph (b) above to cease keeping the organisms he shall dispose of them as safely and as quickly as practicable and paragraph (c) above shall continue to apply until he has done so.

(4) A person who proposes to release genetically modified organisms—

(a) shall take all reasonable steps to keep himself informed, by reference to the nature of the organisms and the extent and manner of the release (including any precautions to be taken against their causing damage to the environment), what risks there are of damage to the environment being caused as a result of their being released;

(b) shall not release the organisms if it appears that, despite the precautions which can be taken, there is a risk of damage to the environment being caused as a result of their being released; and

(c) subject to paragraph (b) above, shall use the best available techniques not entailing excessive cost for preventing any damage to the environment being caused as a result of their being released;

and this subsection applies, with the necessary modifications, to a person proposing to market organisms as it applies to a person proposing to release organisms.

(5) This section does not apply—

(a) to persons proposing to import or acquire, to release or to market any genetically modified organisms, in cases or circumstances where, under section 108 above, they are not required to carry out a risk assessment before doing that act;

(b) to persons who are keeping any genetically modified organisms and who—

(i) were not required under section 108 above to carry out a risk assessment before importing or acquiring them;

(ii) have not been required under that section to carry out a risk assessment in respect of the keeping of those organisms since importing or acquiring them; or

(c) to holders of consents, in the case of acts authorised by those consents.

- (a) is proposing to import or acquire, release or market any genetically modified organisms; or
- (b) is keeping any such organisms;

if he is of the opinion that doing any such act in relation to those organisms or continuing to keep them, as the case may be, would involve a risk of causing damage to the environment.

(2) A prohibition notice may prohibit a person from doing an act mentioned in subsection (1)(a) above in relation to any genetically modified organisms or from continuing to keep them; and the prohibition may apply in all cases or circumstances or in such cases or circumstances as may be specified in the notice.

(3) A prohibition notice shall—

(2) Those powers are exercisable—

(a) in relation to premises—

(i) on which the inspector has reason to believe a person is keeping or has kept any genetically modified organisms, or

(ii) from which he has reason to believe any such organisms have been released or have escaped; and

(b) in relation to premises on which the inspector has reason to believe there may be harmful genetically modified organisms or evidence of damage to the environment caused by genetically modified organisms;

but they are not exercisable in relation to premises used wholly or mainly for domestic purposes.

(3) The powers of an inspector are—

(a) at any reasonable time (or, in a situation in which in his opinion there is an immediate risk of damage to the environment, at any time)—

(i) to enter premises which he has reason to believe it is necessary for him to enter and to take with him any person duly authorised by the Secretary of State and, if the inspector has reasonable cause to apprehend any serious obstruction in the execution of his duty, a constable; and

(7) Where under the power conferred by subsection (3)(f) above an inspector takes possession of anything found on any premises, he shall leave there, either with a responsible person or, if that is impracticable, fixed in a conspicuous position, a notice giving particulars sufficient to identify what he has seized and stating that he has taken possession of it under that power; and before taking possession under that power of—
