Objection to Transport and Work Act Order to the Department for Transport (DfT) for a new busway to the southeast of Cambridge

I wish to make formal objection to the Order for a new busway to the southeast of Cambridge, issued on 9 January 2025.

While the proposal to offer good public transport is highly laudable, this scheme could work equally well by building immediately adjacent to the A1307.

The construction of a cross-country bus route will compromise valuable agricultural land by dividing fields and rendering them less viable for agriculture. This in turn makes them highly susceptible to conversion to development land, this further impacting the green belt.

The scheme will threaten protected wildlife sites and local wildlife populations.

The proposed route is too far from our villages to be useful to their populations and has little local support.

Yours sincerely,
Helen Harwood
