Objection to Transport and Work Act Order to the Department for Transport (DfT) for a new busway to the southeast of Cambridge

I have always been against this proposal but support the original proposal that the busway should go alongside the A1307. Obviously something must be done to ease congestion going into Cambridge but your proposal is not the way to do it.

It seems obvious that the A1307 route will much cheaper to build so I cannot understand why the GCP want to squander money unnecessarily as well as destroying our landscape and productive agricultural land. The A1307 option was originally proposed by the GCP so I wonder if they are pursuing their option just to save face, which seems incredible.

The route across the fields as proposed brings absolutely no benefit at all to my village of Great Shelford as one would have to walk uphill on the extremely unsafe Granham's Road to reach the proposed bus stop. I am sure most people will prefer to use the bus stops located in their villages when going to Addenbrooke's or Cambridge. Surely you do not wish to encourage people to drive to a bus stop!

Yours sincerely,

Eileen Bennée
