

Cycle Flows Dashboard

The cycle flows dashboard has been developed to offer the ability to draw insights from the network of TagMaster cycle counters which are installed across the Greater Cambridge area. To get the best from the dashboard, consider maximising the window (see double-headed arrow button in the bottom-right corner of the dashboard window). Click 'Escape' to exit full-screen mode.

We welcome feedback on all aspects of the dashboard: policyandinsight@cambridgeshire.gov.uk
