Subject: Mossley Station Upgrade - Proposed use of Mill Lane Mossley

You don't often get email from [REDACTED]. [Learn why this is important](#)

Hi,

I'm writing to object to part of the proposed plan for the upgrade of Mossley Station. While I support the work on this vital part of Mossley's

transport infrastructure I believe it is proposed that Mill Lane which runs past Milton St John's Primary School will be used to accommodate construction traffic during the work. This is simply not safe or practical. As well as running past the school the road is narrow, extremely steep, often congested and clearly not suitable for heavy goods or construction vehicles. The bottom of the road is one way and large vans and lorries regularly get stuck trying to get under the narrow bridge at the bottom causing damage to the bridge itself and traffic jams. Added to this the large numbers of small children walking along the narrow pavement and crossing the road it is quite obviously not a sensible place for this sort of traffic.

Please could you take my objections into account and reconsider this part of the plan. I'm sure there are other much safer areas of Mossley for this sort of traffic.

Yours sincerely,

James Hirst
