Subject: Cambourne to Cambridge Busway Application
Date: 08 January 2025 19:19:52

Having looked at the application, I am concerned that this project will not be value for money:

- 1) Surely, making a tidal bus lane on Madingley road would be cheaper and eliminate any effects on local farmland/orchards.
- 2) Given a new railway from Cambourne to Cambridge is coming soon, it is not clear if the Busway will be needed in the future.
- 3) The new Park and Ride site at Scotland farm will remove cars from Madingley Road which are trying to get to the current park and ride and causing congestion on Madingley Road. This is the road that off road Busway is avoiding!!
- 3) upgrading the Girton interchange to allow direct travel from the A428 Eastbound to the M11 south bound will eliminate congestion on the Madingley Road and eliminate the need for the Busway.

Please do not throw good money at an ill thought out project which has not considered the impact of other transport projects.
