Hi I am in support of the project. However I raise 3 objections.

1 Sam Rd car park to become a compound. This would be detrimental to local business

2 closure of Moorgate level crossing, the proposed diversion of footpath is unsafe, I support the installation of a footbridge.

3 the closure of Oldham Rd at Greenfield station, can a Bailey bridge or equivalent be installed to keep traffic flowing, especially for emergency service vehicles.

I request a Full Public Enquiry to cover these and other issues.

Alexander Gray
