Subject: Objection to transport and work act order to the Department of Transport for a new bus way linking Cambourne to Cambridge
Date: 08 January 2025 20:30:14

Dear Sir/Madam,

I, Avril Coghlan, of [redacted], am writing to make a formal objection to the "Application for a Transport and Work Act Order to the Department for Transport (DfT) for a new busway linking Cambourne to Cambridge", as submitted by the Cambridge Greater Partnership on 12 November 2024. The grounds for this objection are the following:

- this busway would go through Coton Orchard wildlife site and do destroy invaluable habitat and old fruit trees that are very important for animals and especially pollinators, which are unfortunately very rare and under threat in the East of England
- the busway would also go through two other local wildlife sites, destroying habitats

This destruction of nature could easily be avoided by instead making new bus lanes and bus priority measures adjacent to the A1303, and by extending the new greenway for cyclists and walkers from Hardwick to Cambourne.

This way invaluable natural habitats and wildlife can be preserved, which would be sadly destroyed by the proposed busway.

Regards,
Avril Coghlan
