Subject: Objection to the proposed Cambourne to Cambridge busway
Date: 04 January 2025 21:36:55

Secretary of State for Transport
Transport Infrastructure Planning Unit
Department for Transport

Dear Sirs,

I wish to register an objection to the proposed Cambourne to Cambridge busway. The objection is based on the lack, in the project's published proposals, of serious analysis of the increased risk of Bin Brook flooding into the adjacent upstream Gough Way estate on which I live. Flood alerts here are received with accelerating frequency that will surely increase with climate change, and I guess that the large embankment and bridge over Bin Brook will exacerbate the situation.

In any case, it is far from clear why the proposed route has been chosen, when the route along Madingley Road seems more suitable; the GCP's concern about increased car traffic on Madingley Road seems spurious, considering its efforts to reduce car trips into Cambridge.

Yours faithfully,

Mr. Ramin Habibi
