Subject: Objection to transport and work order to DfT for a proposed bus route south east of Cambridge

Dear Sir or Madam

I would like to formally object to the proposed bus way route south east of Cambridge as set in Cambridge past, present and future submission of Jan 25.

I am objecting as there is a better alternative that would not damage the limited countryside we have to anything like the same extent. It really would be awful to just grub out significant chunks of the few places we have to walk, take our families and dogs and feel in nature. In terms of preserving nature, supporting people's physical and mental health using the alternative route, largely alongside the existing A1307 road (originally proposed route!) would make much more sense, and also take the bus way closer to the actual villages that it is supposed to serve.

Yours sincerely

Maggie Bending
