Subject: Objection to Transport and Works Act Order to the Department for Transport (DfT) for a new busway to the south east of Cambridge

Dear Sir/Madam

I, Andrew Parker of [REDACTED], am writing formally to object to the above proposal, as submitted by the Greater Cambridge Partnership on 9 January 2025. The grounds for this objection are in the next paragraphs.

Instead of destroying open countryside by building 5 miles of new road, an alternative scheme has been proposed which would achieve similar benefits, at a lower cost. This would include new sections of bus lane alongside the A1307 and would avoid building two bridges over the River Granta chalk stream, creating a scar in the Gog Magog Hills landscape (I lived at Wandlebury from 1958 to 1985). It would also avoid building a new road through a country park and it would better serve the Cambridge Biomedical Campus.

The Greater Cambridge Partnership (an unaccountable organisation, I believe) does not seem properly aware of the importance of the local environment. Please reject this proposal.

Yours faithfully

Andrew Parker
