Dear team,

I **object** to the Transport and Work Act Order to the Department for Transport (DfT) for a new busway, and travel hub, and also providing a path for walkers and cyclists linking Cambourne to Cambridge.

My objection is to the loss and damage to an historic orchard and the trees therein.

Destroying an ancient habitat and the veteran and valuable trees in this place makes a total mockery of any attempt to lower emissions and takes away an important natural, mature green space from locals.
The on-road alternative put forward will cause minimal environmental damage and save millions of pounds and provide more direct journeys to most key destinations.
As a regular visitor to Cambridge where my family live, I am appalled to think of this unnecessary and permanent destruction.
