Objection to Transport and Work Act Order to the Department for Transport for a new busway linking Cambourne to Cambridge

I am writing to make a formal objection to the proposed new busway from Cambourne to Cambridge. There is a proposal for a different route to be built on existing roads by widening them slightly. This would avoid much destruction of the environment in an area of unique and valuable natural landscape. It would preserve the precious biodiversity of the Coton Orchard, avoid destroying many trees, thus enhancing the government's commitment to achieving net-zero emissions. It would also cost much less and be able to be delivered much more quickly, and would be acceptable to the local community.

Please consider this option very carefully.
