Subject: **Objection to transport and work act Order to the dept of transport (DFT) for a new busway to the southeast of Cambridge**

Hello Diana mills at 48 high street great shelford Cambridge CB22 5EH . I am writing to make a strong objection and formal complaint for a new busway to the southeast least of Cambridge . This was submitted on the 9th Jan 2025 . This will directly affect this village and surrounding countryside when there is clearly a far more cost effective solution with out destroying Greenland . The first proposal by GCP in 2018 is a fraction of the cost and will protect wild life chalk stream and countryside . It will avoid 2 new bridges and avoid ruining the the got magog hills . It will also better serve the bio medical campus expansion which I thought was central to the destructive plan . Please pleas choose the cheaper and greener plan proposed in 2018 .
