Subject: Objection to Transport and Work Act Order to the Department for Transport (DfT) for a new busway to the southeast of Cambridge Cambridge

Dear Sir/Madam,

I,

Sandra Bebbington,

[REDACTED]

[REDACTED]

[REDACTED]

am writing to make a formal objection to the "Application for a Transport and Work Act Order to the Department for Transport (DfT) for a new busway to the southeast of Cambridge", as submitted by the Cambridge Greater Partnership on 9 January 2025. The grounds for this objection are the following:

I have live in this area since 1968. First Babraham, then Bourne Bridge, then Sawston, then much later West Wickham, and now back to Sawston.

We have space and green here - take a drive down the A10 or up to Wolverhampton or Nuneaton (I have relatives there), and see how the view differs - roads, traffic jams and traffic lights, buildings, litter - I would not want to live there.

Cambridge is a great place to live, and I am not against a bit of expansion and making it greater, but please keep the green space where we can.

One of the best sights is on an early summers day when a storm is coming in and the sky has turned purple and you drive over the top of the Gogs towards Cambridge and on the other side the fields are filled with flowering rape - the fields just glow as if they have been lit from below.

I think that if you want to build a busway, then following the existing main road route from Haverhill to Addenbrooke's (closely), would be the kind solution as it would hardly

change the landscape, and perhaps calm jitters about mass development filling-in the remaining green spaces, because the existing route has already been there forever.

Regards,

Sandra Bebbington.
